WAR REVENUE BILL CONSIDERED.

Democrats Not Pleased With the Fact That the Republicans Framed the Bill In Secret and Without Them Having a Voice in the Measure—They Desire to Offer Amendments, but Will Make No General Fight on the Measure. Those Congressmen Who Were Loud For Peace, Now Backing Up the Administration—Considerable Democratic Opposition to the Bond Feature—Bill Not Likely to Receive Consideration in the Senate This Week.

WASHINGTON, April 25.—A resolution formally declaring war against Spain was introduced in the congress of the United States today and passed. The decision to do so was reached after mature deliberation in order to safeguard the interests of the United States. All arguments pro and con were discussed at the White House at a conference in which President McKinley, Attorney General Griggs, Assistant Secretary Day and Senators Davis and Hale.

The president sent a message to congress immediately after its convening, setting forth the facts in the case and asking congress to formally declare war in order that there might be no misunderstanding on the part of other nations. The most important point in the message from a new point of view is the announcement that Spain has made formal reply to our ultimatum. The document is a formal acknowledgement by Spain and also an acceptance by that country of the ultimatum as a virtual declaration of war. Congress therefore was asked to recognize this condition of affairs and to declare it to the world, using Spain's answer as a reason for it. The war resolution was already prepared, and the two committees having in charge the foreign affairs of the two houses of congress were prepared to report upon it very speedily—immediately after the reading of the message. The resolution was then taken up and passed forthwith.

Now that war has been entered upon even those congressmen, like Mr. Johnson of Indiana and Mr. Loud of California, who hung back protesting to the last, have sunk their individual views in the common cause and all are now anxious to give to the president a united support in every measure deemed essential, or necessary, to prosecute the war to a speedy and successful conclusion. In order to show the world that all factional divisions have ceased and that the representatives of the American people are arrayed in solid and imposing phalanx behind the chief executive the declaration of war was passed without a word of debate.

Following the declaration of war the house proceeded to the work of providing the sinews with which to prosecute it. But upon this there is not unanimity. The Republicans and Democrats hold widely divergent views as to the methods by which the revenues to carry on the war should be raised. No factional opposition, however, will be offered by the minority. The leaders of the minority are extremely anxious and they will insist, so far as they are able, upon presenting such substitute propositions as are in line with their ideas and doctrines for the bill framed by the Republican members of the ways and means committee which Chairman Dingley introduced in the house Saturday. The Democrats of the house, especially the leaders and the members of the ways and means committee, feel aggrieved because they have neither been consulted nor had a voice in the preparation of the war revenue measure.

Mr. Bailey said the Democrats would probably be willing to forego general debate if an arrangement could be made to consider the entire bill for amendment under the five-minute rule. The chief amendment they desire to offer is for an income tax, which they believe can be passed to meet the decision of the supreme court. They believe a considerable portion of the war tax should be raised from this source. They are also opposed to some of the provisions of the stamp tax, which they believe will prove onerous and irritating and it is likely they will offer propositions in lieu thereof of a tax of 50 cents per barrel on petroleum and a graduated

tax on railroad and other transportation tickets, both of which propositions were considered by the Republicans of the ways and means committee but rejected.

There is also considerable opposition to the bond feature of the bill on the Democratic side and whether with unanimity or not a motion will undoubtedly be made to strike it out. Mr. Bailey, however, is understood to recognize the necessity for an authorization for borrowing money. Some of the Populists desire an authorization for an issue of greenbacks. The bond feature of the bill will probably be bitterly attacked.

The senate passed the resolution declaring war promptly.

It is not believed that the war revenue bill will receive consideration from the senate this week, owing to the probability that it will meet with sufficient opposition in the finance committee to delay it there for some time. The Democrats will seek to eliminate the bond feature of the bill and they may attempt to incorporate a provision for an income tax when the bill reaches the committee, and a stubborn contest is promised both in the committee and in the senate. Whether the bill is amended in the committee or reported as it comes from the house the indications are quite positive that it will be made the basis of a prolonged discussion of the finance.

The ways and means committee estimate the increased revenue that would be derived from the war measure proposed would be from \$90,000,000 to \$100,000,000, distributed as follows: Fermented liquors, \$35,000,000; tobacco, \$15,000,000; cigars, \$5,000,000; dealers in tobacco and cigars, \$5,000,000; stamp taxes on documents, telegrams, etc., \$30,000,000; stamp tax on wines, mineral waters, etc., undetermined. Tonnage tax on vessels engaged in foreign trade, \$2,000,000.

Tea and coffee are not touched, as all the measures proposed for war revenues are internal revenue taxes.

The loan provisions of the bill are as follows: That the secretary of the treasury is hereby authorized to borrow on the credit of the United States the sum of \$500,000,000, or so much thereof as may be necessary, and to prepare and issue therefor, at not less than par, coupon or registered bonds of the United States in such form as he may describe and in denomination of \$50, or some multiple of that sum, redeemable in coin, at the pleasure of the United States, after ten years from the date of their issue, and payable 20 years from such date, and bearing interest payable quarterly in coin, at the rate of 3 per cent per annum; and the bonds herein authorized shall be exempt from all taxes or duties of the United States as well as from taxation in any form by or under state, municipal or local authority.

PLAN OF CAMPAIGN.

Spanish Admirals Believed to Have Outlined One Against Us at a Meeting.

MADRID, April 25.—It is believed that the Spanish admirals, at their meeting, approved of a plan of campaign against the United States. All information on the subject naturally is refused.

The rush to change paper currency to silver has ceased, thus ending the monetary crisis.

A high official asserts that the powers are still conferring, with results which are expected to benefit Spain.

The tone of the Portuguese press is friendly to Spain, and it is said demonstrations in favor of Spain have been made before several United States consulates in Mexico.

The impartial prints a list of the American ships in the Mediterranean, pointing out that they will be easy prey for the Spanish warships.

STRENGTHENING FORTIFICATIONS.

Hampton Roads and Chesapeake Bay Will Soon Be Well Protected.

WASHINGTON, April 25.—The work of strengthening the fortifications at Fort Monroe continue with a large working force, as does the work of laying mines in the harbor. Where the old 8 and 10-inch converted rifles used to stand will be mounted a battery of modern rapid fire guns, which are expected to command Hampton Roads and Chesapeake bay and make it impossible for a torpedoboot of the enemy to enter.

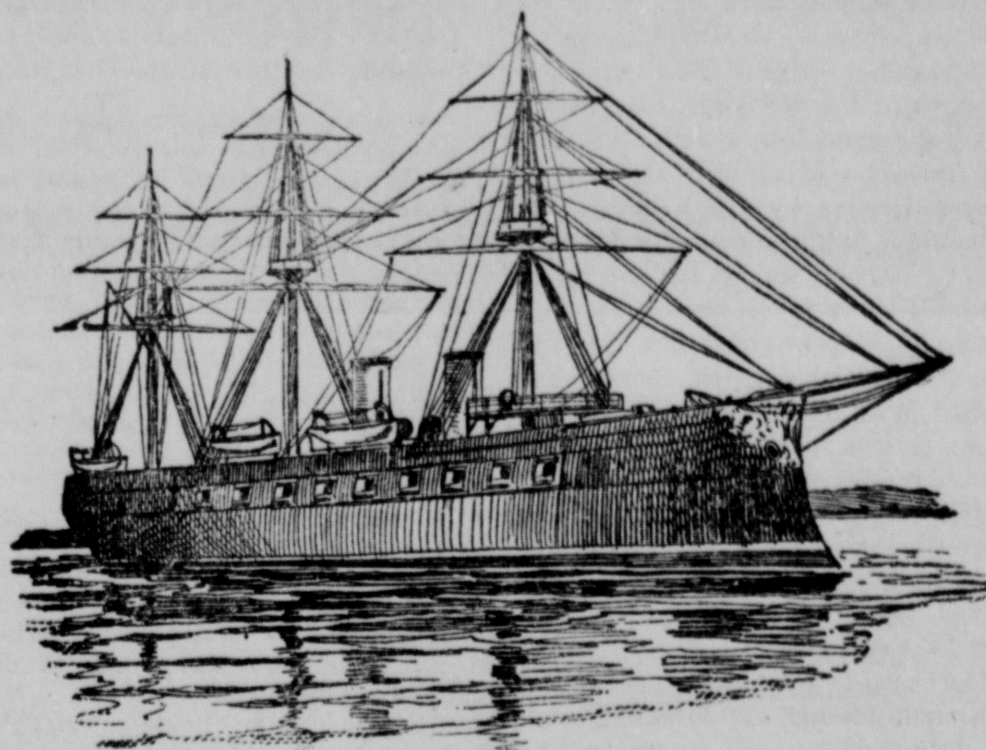

The work is not confined to the fort itself by any means, for active preparations for a possible conflict are being made at the "Pines battery" and on the beach of Chesapeake bay, midway between this battery and the fort. Here four new disappearing guns will be mounted behind breastworks of the most modern and substantial kind.

In addition to this the immense battery of smoothbore guns are ready for use and at a range of one mile will prove terribly destructive. At Willoughby spit, opposite Fort Monroe, and which point controls the entrance to Norfolk, Newport News and the James and Potomac rivers, a board of naval officers has made an inspection with a view of constructing a fort at the point to co-operate with Fort Monroe.

It is expected that active operations on the fort will begin this week.

Orders to Michigan Guard.

DETROIT, April 25.—General order No. 25 to the national guard, issued from military headquarters, orders the First, Second, Third and Fifth infantry, First and Second independent battalions, field staff bands to be sent to Island lake tomorrow.

BROADSIDE BATTLESHIP VITORIA.

The Vitoria, as well as another vessel called the Numancia, has no counterpart in the American navy. She is called a "broadside battleship" and is really an old fashioned war vessel remodeled. Her value, therefore, as a fighting machine, despite the fact that she has heavy armor and armament, is problematic. She would probably not have much chance of victory in a brush with a modern battleship or even an armored cruiser of the New York or Brooklyn type.

SPANISH FIRED ON OUR FLEET

Spanish Prizes Towed Into Key West With Their Crews as Prisoners.

HAVANA IS BLOCKADED.

Not a Shot Fired on the City by United States Ships.

Fifteen Guns Fired in Honor of Rear Admiral Sampson—The Different War Vessels of the Squadron Have Exciting Chases After Boats Carrying the Spanish Flag—Vessels Leave the Fleet to Blockade Other Cuban Ports—How Sampson's Ships Are Lined Up Before the Spanish Capital of Cuba—The Revenue Cutter Winona Captured a Spanish Steamer at Ship Island, Miss.—A Newspaper Dispatchboat Tows in One Prize—Press Censorship.

ON BOARD FLAGSHIP NEW YORK, OFF HAVANA, April 25.—The Morro castle batteries opened fire on the fleet, but without the slightest effect. Not a single shot has been fired against the batteries.

KEY WEST, April 25.—Ensign Christy, with a crew of 16 from the cruiser Detroit and four from the flagship, brought into port the captured Spanish steamer Catalina, Captain Fano, 3,491 tons, which left Cadiz on March 7, and was bound from New Orleans for Barcelona, via Havana, for which latter port she was making when taken.

The Spanish ship Michael Jover was also captured by the fleet.

The gunboat Wilmington captured the Spanish schooner Candidia, with a deckload of charcoal intended for Havana, where it is extremely valuable for fuel.

At this writing the Cushing is bearing down on a schooner to the southeast. The breeze is slow, and while she has on all sail, the Cushing will overhaul her shortly. She has the start, but the Cushing has the steam.

The torpedoboot Porter captured the Spanish cruiser Antonio laden with sugar for Havana. The Antonio was sent to Key West with a prize crew of four men under Naval Cadet Duboise.

A special from Biloxi, Miss., says the revenue cutter Winona, from Mobile, captured the Spanish steamer Saturnina at Ship Island, Miss., but likely will have to remain in quarantine with the prize for a time.

According to dispatch boats which have reached this port from the United States fleet the port of Havana is blockaded.

The Associated Press dispatch boat Dauntless arrived in this harbor before midnight Saturday night.

The fleet range from eight to ten miles from the shore, along which they are extended for fully 20 miles in the following order running from west to east: Mayflower, Iowa, Newport, etc.

troit, Matamoros, Indiana, New York and Wilmington, with the torpedoboot Porter attending the flagship.

Morro Castle and the city of Havana are in good view from the flagship with glasses, but the coast, as is always the case, is covered with a haze. No news of what is occurring in the blockaded city has been obtained, and the newspaper men are equally in doubt as to the intentions of Rear Admiral Sampson and the United States government. Soon after 9 o'clock Saturday morning the Amphitrite, Puritan, Cincinnati, Castine, or Machias, and three torpedoboots, after much interchange of signals, parted company with the flagship, sailing in a northeasterly direction, presumably to blockade Matanzas, Cardenas and Sagua la Grande. When the flagship New York started off at a 20 knot clip to capture the Spanish steamer Pedro, the Dauntless veered and followed and was in at the death. Soon after came the stirring incident of the capture of the Mathilde followed by the determination to return to Key West with dispatches.

The Dauntless was asked through the megaphone to tow the Spanish prize Mathilde to Key West, which was a fitting ending for the day. It was an example of the grim irony of fate which gave to the Dauntless, the most famous ex-filibuster the first opportunity to tow a Spanish prize to the United States. The hawser was tightened on the Mathilde and the Dauntless, with her prize, rushed through the water toward Key West. The passage to this port was a rough one, of course, but it was no worse than usual, and without any special event to chronicle.

The New York, with the torpedoboot Porter in close attendance, was lying about eight or ten miles off Havana, when the smoke of a steamer was seen a few miles to the eastward. The flagship and the Porter started for her immediately, but when they drew near, they found that she was the Italian man-of-war Giovanna Bausan, bound for Havana. The Italian ran the American colors up to his masthead and fired a rear admiral's salute of 15 guns, it being the first salute Rear Admiral Sampson had received from a foreign warship since his appointment to his present rank. The New York returned the salute and as the firing occurred only a few miles off shore, the incident probably created consternation in Havana.

Wires here are taken by the government. Press matter is censored. Havana connections are abandoned.

BIG CRUISERS SET SAIL.

Destination of Minneapolis and Columbia Kept Quiet by Commodore Schley.

FORT MONROE, Va., April 25.—For strategic purposes and for the protection of information that might be of value to the enemy Commodore Schley of the flying squadron has established a practical censorship over those in his command.

It is for these reasons that the actual destination of the Minneapolis and Columbia, which have left, is merely matter of newspaper conjecture.

Protection of the steamship Paris, assistance to the battleship Oregon, capture of Spanish gunboats and convoy for the transport Panther, now at Hampton Roads, are some of them. The latter theory is practically discredited, because the Panther, with her human freight of nearly 700 officers and marines, lies in safety with the remaining ship of the squadron off Fort Monroe and evidently in no hurry to move. As a matter of fact the Panther itself has some protection, being pretty well armed with eight rapidfire guns, which could be used effectively.

The Topeka Not Wrecked.

LONDON, April 25.—The United States cruiser Topeka is safe. It was not the cruiser which collided with the Albatross on Tuesday evening after leaving Falmouth. The steamer Jesmond, British, has arrived at Cardiff in a damaged condition. She reports having been in collision with the Albatross.

SPAIN HAS ACTED

A Declaration of War Gazetted at Madrid.

THE DONS WILL PRIVATEER.

Also Announced That Foreigners, Who, Under Letters of Marque, Prey on Spain, Will Be Treated as Pirates—At a Cabinet Council It Was Decided to Protest Against the Capture of the Buena Ventura as an Act of Piracy and to Seek the Aid of Foreign Representatives at Madrid—A Claim Made the People of Philippines Are Loyal.

MADRID, April 25.—Spain has officially declared war. In a decree she publishes to the world the annulment of all treaties, protocols, agreements or connections in force between her government and that of the United States.

She gives United States ships 30 days to leave her harbors.

She reserves to herself the right of privateering and announces that she will consider as pirates all foreign privateers.

The government has received no official information of the capture of any American vessels, but instructions have been sent to the Spanish naval authorities to effect the capture of the American line steamship Paris, now on her way to New York from Southampton.

At a cabinet council, presided over by the queen regent, summoned to consider the capture of the Buena Ventura, it was decided to claim that the vessel was unlawfully captured, and the minister for foreign affairs, Senor Gullon, was instructed to seek the support of the representatives of the foreign powers at Madrid.

There have been slight demonstrations, but they were dispersed by Governor Aguilola. The one subject of conversation throughout the day has been the capture of the Buena Ventura prior to a formal declaration of hostilities or the lapse of the time limit in the American ultimatum.

Many rumors are afloat as to captures on both sides. The papers warn the populace not to be elated or depressed by such statements, insisting that many of them originate on foreign bourses for gambling purposes.

The attitude of the citizens of Madrid is irreproachable. Several American correspondents left by the Sud express.

Advices have been received from Manila, Philippine Islands, to the effect that when news was received there of the sailing of the American squadron from Hongkong, an imposing popular demonstration took place, all classes offering their property and lives in defense of their country. The enthusiasm is described as "tremendous."

Rumors are being circulated that the Philippine filibusters are co-operating with the American squadron, but there is no official confirmation of them.

The cabinet council has approved the general budget. Despite statements published in New York to the contrary it is declared here that the Spanish navy is fully supplied with coal. The government has received no official information of the capture of any American vessels.

SPANIARDS WORKING LIKE BEAVERS.

Doing Everything in Their Power to Strengthen Havana Fortifications.

NEW YORK, April 25.—The steamer City of Washington, from Havana, has arrived, bringing 95 Cuban passengers, two-thirds of them women and children. She was the last vessel to leave Havana before the United States fleet established the blockade, having departed last Wednesday.

No trouble was experienced by Captain Frank Stevens with the Spanish authorities in clearing from Havana. In telling of the situation there, Captain Stevens said:

"About the only trouble that a force invading Havana from the sea would have, would, in my opinion, be the fortifications east of the harbor. These are very strong indeed, and are mounted with heavy guns, all Krupps and Armstrongs. The Spaniards are working like beavers, improving the defensive powers of these works. They have a steam engine at work night and day 'padding' sand about the breastworks, and reinforcing the casemates and embrasures."

PRESIDENT WENT TO CHURCH.

Secretary and Mrs. Gage and Miss Alger Accompanied Him on Sunday.

WASHINGTON, April 25.—For the president and his cabinet circle Sunday passed quietly and uneventfully.

Secretary Alger escorted his daughter to the White House during the morning and the latter, in company with the president, attended divine service at the Metropolitan Methodist church, Secretary Alger going to a Presbyterian church. Secretary and Mrs. Gage also drove to the White House and accompanied the president and Miss Alger to the Metropolitan. Mrs. McKinley has not yet returned from her trip to New York.

The Democrats of the house, especially the leaders and the members of the ways and means committee, feel aggrieved because they have neither been consulted nor had a voice in the preparation of the war revenue measure.

Mr. Bailey said the Democrats would probably be willing to forego general debate if an arrangement could be made to consider the entire bill for amendment under the five-minute rule. The chief amendment they desire to offer is for an income tax, which they believe can be passed to meet the decision of the supreme court. The government has received no official information of the capture of any American vessels, but instructions have been sent to the Spanish naval authorities to effect the capture of the American line steamship Paris, now on her way to New York from Southampton.

At a cabinet council, presided over by the queen regent, summoned to consider the capture of the Buena Ventura, it was decided to claim that the vessel was unlawfully captured, and the minister for foreign affairs, Senor Gullon, was instructed to seek the support of the representatives of the foreign powers at Madrid.

There have been slight demonstrations, but they were dispersed by Governor Aguila. The one subject of conversation throughout the day has been the capture of the Buena Ventura prior to a formal declaration of hostilities or the lapse of the time limit in the American ultimatum.

Many rumors are afloat as to captures on both sides. The papers warn the populace not to be elated or depressed by such statements, insisting that many of them originate on foreign bourses for gambling purposes.

The attitude of the citizens of Madrid is irreproachable. Several American correspondents left by the Sud express.

Advices have been received from Manila, Philippine Islands, to the effect that when news was received there of the sailing of the American squadron from Hongkong, an imposing popular demonstration took place, all classes offering their property and lives in defense of their country. The enthusiasm is described as "tremendous."

Rumors are being circulated that the Philippine filibusters are co-operating with the American squadron, but there is no official confirmation of them.

The cabinet council has approved the general budget. Despite statements published in New York to the contrary it is declared here that the Spanish navy is fully supplied with coal. The government has received no official information of the capture of any American vessels.

SPANIARDS WORKING LIKE BEAVERS.

Doing Everything In Their Power to Strengthen Havana Fortifications.

NEW YORK, April 25.—The steamer City of Washington, from Havana, has arrived, bringing 95 Cuban passengers, two-thirds of them women and children. She was the last vessel to leave Havana before the United States fleet established the blockade, having departed last Wednesday.

No trouble was experienced by Captain Frank Stevens with the Spanish authorities in clearing from Havana. In telling of the situation there, Captain Stevens said:

"About the only trouble that a force invading Havana from the sea would have, would, in my opinion, be the fortifications east of the harbor. These are very strong indeed, and are mounted with heavy guns, all Krupps and Armstrongs. The Spaniards are working like beavers, improving the defensive powers of these works. They have a steam engine at work night and day 'paddying' sand about the breastworks, and reinforcing the casemates and embrasures."

PRESIDENT WENT TO CHURCH.

Secretary and Mrs. Gage and Miss Alger Accompanied Him on Sunday.

WASHINGTON, April 25.—For the president and his cabinet circle Sunday passed quietly and uneventfully.

Secretary Alger escorted his daughter to the White House during the morning and the latter, in company with the president, attended divine service at the Metropolitan Methodist church, Secretary Alger going to a Presbyterian church. Secretary and Mrs. Gage also drove to the White House and accompanied the president and Miss Alger to the Metropolitan. Mrs. McKinley has not yet returned from her trip to New York.

SOLDIERS AT CHURCH

Heard a Strong Sermon Delivered by the Rev. Dr. Lee.

BATTLE IS NOT YOURS, BUT GOD'S

Was the Appropriate Text—Each Man Presented With a Testament by the Christian Endeavor—An Unusual Occasion at the First Presbyterian.

A great crowd of people filled the First Presbyterian church last evening. When the auditorium could seat no more the curtains were drawn back, and soon every seat in the lecture room was occupied, while less fortunate people stood about the doors or occupied chairs in the class rooms. The unusual attendance was occasioned by the announcement that Company E would attend the services as an organization.

The decorations were flags and flowers, and the front seats in the middle block were occupied by the soldiers. The congregation entered heartily into the song service, and Mrs. J. C. Thompson and a quartet sang beautifully "God Save Our Union," while Miss Florence Everson and Miss Sarah James rendered a duet well. Doctor Lee, on behalf of the Christian Endeavor of the church, presented each soldier with a copy of the Testament, saying that it was done "as a mark of respect and an expression of love for you as defenders of our nation, and we assure you we will not forget any one of you."

"The battle is not yours, but God's," were the words of the text. The gentleman said in part:

"In order to insure the truthfulness of this statement we must go back 122 years, and recall how a nation was struggling against odds without an elder brother to protect it. America: our own country. The land we love, and for which we will, if need be, die, armed in the holy cause of liberty; weak in soldiers and armament, but mighty in purpose, we gained the victory.

"Now look on a similar spectacle. A European nation is oppressing one of its own children, but our oppression is only a shadow of what Spain has done for Cuba. Why has Spain done this? The sinning of nations is through ignorance, and this is true of Spain. Only one Spaniard out of three can read and write. The common people are ignorant, but well do the Spanish officers know their crime and that they are coming to a swift retribution. The common people know not our power. They cannot understand how it has been possible for us to spring up and be strong.

"You will agree with me in the estimate that is placed on General Weyler. His plan was to kill off thousands of Cubans who had love for their island. For many years Spain has considered Cuba a big boy to make her money and lay it down at her feet, keeping nothing. The agents who collected taxes, in some instances all the profits of plantations, were not bandits. They were officials of Spain who were ordered to do these things.

"We have also another claim for our position. I believe Spain has never paid for the death of our citizens when she took the Virginians and shot down sailors and passengers in cold blood. Nor yet for the men who died in that explosion, due, we have cause to believe, to Spanish mechanism. We do not speak vindictively. We have plenty

"Another reason is the manner in which Europe accepts the situation.

You know when the powers are quiet it has to be about right, and they are keeping very quiet now. Bismark said America makes him think of a young giant, anxious to expend his surplus physical force on someone. Not long ago there was a meeting of the representatives of European nations to see what could be done to stop America in her triumphal march. The other day Crispi, ex-premier of Italy, said that a danger threatened the Latin people, for soon American principles, for weal or woe, would have worked a revolution. Our cause is just, the cause of Cuba is just, or Europe would not be quiet. Never before, perhaps, have we a similar case. A great nation steps in, and says what another great nation shall not do. Why does America say that? Not for territory or other gain, but for humanity. Where now will you find another nation to do it? 'The battle is not yours, but God's.' We stand for liberty the blessings of which we have enjoyed, until it has broadened and crossed the sea.

"The cause is broader than north and south, and blessed old England, may God keep her always, stands on the other side a sentinel of right. From where shall fear come so long as England and America shall stand, both right, before God and man? From where shall the enemy come that will conquer us?

"Indeed the text never was truer in the history of the world that: 'The battle is not yours, but God's.' The cause is then broader than space and longer than time, as the grand old Christian statesman, Lowell, knew, when, as though speaking of this moment, he said:

"When a deed is done for Freedom, thro' the broad earth's aching breast Runs a thrill of joy prophetic, traveling on from east to west, And the slave, where'er he cowers, feels the soul within him climb, To the awful verge of manhood as the energy sublime Of a century, bursts full blossomed on the stormy stem of time."

"Then as though he had looked forward to this very evening when you were to receive the word of God as the shield of faith, and as though he had seen the thousands of scaffolds on which the Cubans have died, that old patriot said: 'Careless seems the great Avenger, history's pages but record One death-grapple in the darkness, 'twixt old systems and the word. Truth forever on the scaffold, wrong forever on the throne— Yet that scaffold sways the future, and behind the dim unknown Standeth God within the shadow, keeping watch above his own."

"May God bless you and lead you to a victory greater than any ever known before on earth, and may the grand old song 'America,' be the song of the nations of the world."

At the conclusion of the sermon that great congregation arose as one, and the inspiring music and beautiful sentiment contained in "America" swelled forth from scores of throats.

Very Politely Put.

Several clergymen boarded a street car in Boston one day, and one of them hearing that Wendell Phillips was in the car got up and asked the conductor to point him out. The conductor did so, and the minister, going up to the orator, said:

"You are Mr. Phillips, I am told."

"Yes, sir."

"I should like to speak to you about something, and I trust, sir, you will not be offended."

"There is no fear of it," was the sturdy answer, and then the minister began to ask Mr. Phillips earnestly why he persisted in stirring up such an unfriendly agitation in one part of the country about an evil that existed in another part.

"Why," said the clergyman, "do you not go south and kick up this fuss and leave the north in peace?"

Mr. Phillips was not in the least ruffled, and answered smilingly:

"You, sir, I presume, are a minister of the gospel?"

"I am, sir," said the clergyman.

"And your calling is to save souls from hell?"

"Exactly, sir."

"Well, then, why don't you go there?"—San Francisco Argonaut.

THE SPANISH FLEET.

AN EXAMPLE OF ITS NAVAL TACTICS IN 1866.

How Her Attacking Squadron Was Soon Put Out of Action by the Peruvians. Attack by Admiral Nunez on Defenseless Valparaiso and His Repulse at Callao.

A chapter from modern Spanish history which was overshadowed in the United States by events of greater importance, but which serves to give some indication of what Spanish gunnery was a few years ago, is worth retelling now. Spain had a grievance against Peru in 1866 because some of her subjects had been maltreated there, and she sent a squadron of seven vessels, mounting 211 guns, to punish the Peruvians. Peru had no navy at that time, but her neighbor Chile came to her aid with three vessels—the Esmeralda, carrying 42 smooth bores; the Victoria, a small one gun monitor, and the Loa, a diminutive Merrimac, plated with iron and mounting two 68 pounders. A writer in The Army and Navy Journal describes the affair.

"The Esmeralda," he says, "met the Spanish gunboat Cavandago, three guns, and captured her in 20 minutes without the loss of a man. The Spaniards fired only three shots. They had two men killed and 14 wounded. The loss of the Cavandago, followed by the capture of an armored launch, so chagrined the Spanish admiral, Pareja, that he blew out his brains in his cabin.

"Admiral Nunez, who succeeded Pareja, then gallantly assailed the defenseless Valparaiso, where not a single gun was mounted except a few saluting pieces. Not a shot was fired from the town, and the inhabitants promptly evacuated it. This Spanish admiral, in spite of the protests of the foreign men-of-war in the harbor, threw from 2,000 to 3,000 shells into it from his fleet of six vessels. The Spanish gunnery was so wretched that little damage was done except by fire, which destroyed \$10,000,000 worth of neutral goods. It was a most wanton piece of barbarity, for if the Spaniards had had a landing force they could have taken the town without firing a shot.

"The gallant Nunez next assaulted the city of Callao, which taught him the difference between an open town and one that was adequately defended. In four or five hours the Spanish squadron was badly used up and was glad to crawl back to Spain as best it could in its crippled condition. The Villa de Madrid, 56 guns, got a shot in her steam chest and was towed out of action. The Berenguela, 36 guns, had a hole 20 feet square knocked into her near the water line by an exploding shell and crawled out of range to repair damages.

"The ammunition in two other Spanish vessels gave out after a two hours' fight, and they had to retire, one of them having been twice on fire in the neighborhood of the magazine. This left two vessels, the Numancia, ironclad, and the Almazan. Two hours later these two vessels ceased their fire and withdrew, the Chileans firing at them until they were beyond range. The Spanish loss is not exactly known, but is supposed to have been about 200. Commander Rodgers, U. S. N., estimated the loss of the Chileans at 80, though others give a larger number. No serious damage was done to either ships or forts by the fire beyond that named. The Spaniards then withdrew discomfited from the Pacific, being short of stores and ammunition and with their vessels foul for want of docking. They had established a base at the Chincha islands, but they had no facilities for repair."

In speaking of this fiasco a naval officer said the other day: "Spain has in a measure shared in the movement toward more formidable ships and guns, but it is the personal factor which tells in a naval engagement now as much as it did a century ago, when battles were fought with wooden ships. This is recognized by all authorities on naval warfare, although the uninformed are apt to think that the modern gunboat is a complicated machine which fights automatically. Good gun service will win against great odds in armament, and in this particular we have good reason to believe that we are much superior to Spain. It is a well established fact that the Latin races do not develop good gunners. Wherever the Spanish navy has attempted to show its skill with guns in the last half century it has made itself ridiculous."

Latest Bloodhound Industry.

The latest Kansas industry to apply for a charter is the "Barnes Bloodhound association," composed of the principal business men of Barnes, Washington county. The object of this new scheme is to raise bloodhounds for hire to officers of the law for tracing criminals and for sale to peace officers who desire to use these animals in bringing offenders to justice.—New York Sun.

Thirty-four years ago a picturesque scene was enacted in the Danish capital. A deputation of Greeks stood before the old king of Denmark and asked that they might offer the crown of their country to his great nephew, Prince George. For an answer the old man turned to his youth, took him and a seat at his side and saluted him as his brother sovereign.

The Spaniards then withdrew discomfited from the Pacific, being short of stores and ammunition and with their vessels foul for want of docking. They had established a base at the Chincha islands, but they had no facilities for repair."

In speaking of this fiasco a naval officer said the other day: "Spain has in a measure shared in the movement toward more formidable ships and guns, but it is the personal factor which tells in a naval engagement now as much as it did a century ago, when battles were fought with wooden ships. This is recognized by all authorities on naval warfare, although the uninformed are apt to think that the modern gunboat is a complicated machine which fights automatically. Good gun service will win against great odds in armament, and in this particular we have good reason to believe that we are much superior to Spain. It is a well established fact that the Latin races do not develop good gunners. Wherever the Spanish navy has attempted to show its skill with guns in the last half century it has made itself ridiculous."

Latest Bloodhound Industry.

The latest Kansas industry to apply for a charter is the "Barnes Bloodhound association," composed of the principal business men of Barnes, Washington county. The object of this new scheme is to raise bloodhounds for hire to officers of the law for tracing criminals and for sale to peace officers who desire to use these animals in bringing offenders to justice.—New York Sun.

Thirty-four years ago a picturesque scene was enacted in the Danish capital. A deputation of Greeks stood before the old king of Denmark and asked that they might offer the crown of their country to his great nephew, Prince George. For an answer the old man turned to his youth, took him a seat at his side and saluted him as his brother sovereign.

BIG ROCK CAME DOWN

Blocking the Street Railway
For Hours.

THEY BLEW IT TO PIECES

But the Force Worked Hard Until Late
Last Night Before the Obstruction Was
Cleared Away--Passengers Were Trans-
ferred All Day.

The steady rain of Saturday caused
the street railway a great deal of trouble
yesterday.

Early yesterday morning, after a num-
ber of street cars had gone through to
Wellsville, several tons of earth came
tumbling down on the track a short dis-
tance this side of the Walker switch.
Traffic was delayed. The transfer sys-
tem was in use in a short time, but the
passengers had to wade through many
yards of mud and stones.

The section gang of the company was
put to work at once removing the slip,
but one of the bowlders was so large that
it was impossible to move it without
blasting, and although the force worked
continuously it was 11 o'clock last night
before the track was entirely cleared.

The reports of the blasts were heard
in the city, and as usual caused some ex-
citement, many people thinking the
National Guard had been called.

TRAMPED MANY MILES,

But These Boys Were Only Out For
Fun.

A well-known young man of this
place, who is at present attending col-
lege, has confided to a friend that he
spent his spring vacation in an unusual
manner.

In company with a number of other
students, he planned and carried out a
tramping trip. They traveled over 400
miles on freight trains and occasionally
varied the monotony by begging in
villages. They endured a great deal of
hardship, but enjoyed the trip im-
mensely.

His Only Love.

A Horton spinster has quite a ro-
mance connected with her life. In her
younger days she had a sweetheart and
he asked her to be his wife, but as she
was too young to marry she refused
him. They separated and the years fled
by, bringing with them much sorrow
for the giddy miss. Ten years after-
ward, on the very day of the month on
which she refused him, came a letter
from the sweetheart of her childhood
asking again for her hand. She did not
love him, but decided to never marry
any one unless it be this man. She re-
fused again, and every year since then
she gets a letter on their anniversary
with the same old question written
therein. The letters are not full of love.
Oh, no, simply a question, that is all--
a dozen words or more written in a
businesslike way, with his name signed
below. Perhaps they will get married
some day, but very likely not.--Hort-
on Headlight.

Not Many Bluestockings.

The latest census of Egypt shows that
the country is about the only one in the
world where the men are in a majority
over the women. The male sex in the
khedive's dominions exceeds the female
by 160,000, and it is curious to note
that this numerical predominance of the
male is very evenly spread over both
upper and lower Egypt. It is only in
the sparsely peopled and newly recov-
ered province of Dongola that the wom-
en are more numerous than the men.
Another interesting fact is that the pro-
portion of Egyptian women knowing
how to read and write is just a little
over one half per cent.--New Orleans

well known in this city, and a number
of people left this morning to attend the
funeral.

Liverpool's Favorites.

George Carey yesterday failed to
make a hit in the Louisville-Cleveland
game. He played a good fielding game,
but made his second error of the season.

Winnie Mercer lost his game to
Brooklyn Saturday afternoon. He had
it won until the sixth inning when the
Brooklyn team made six hits and six
runs.

The Cuban Duchess.

There is an amusing story of the pres-
entation of the Duchess of Devonshire
to the queen regent of Spain four or five
years ago which, in the light of cur-
rent events, may be given even a pro-
phetic twist. Almost the first words of
Queen Christina after giving audience
to the duchess were, "I believe you are
of Spanish birth, are you not?" "No,
senora," was the reply. "I am Cuban
born." "Ah," said the queen sarca-
stically, rising in token that the audi-
ence was at an end; "to the best of my
knowledge Cuba even yet is a province
of Spain."--Pittsburg Dispatch.

A Powerful Assuager.

Probably the proposed war tax on tea,
coffee and beer may have an effect to
assuage the popular thirst for gore.--

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Label at the head of their columns.

It's all right so long as we capture the prizes.

CONGRESS stands behind President McKinley and the people stand behind congress, making a combination which Spain will find solid as a rock.

THE new mayor of Salem has ordered the slot machines out of town, and in other ways shown that he will give that Quaker community the house cleaning it seems to need.

THERE is no reason to believe that Spain will long withstand the assaults of Uncle Sam, and long before the snow flies some of the boys who marched away will have again taken up their peaceful avocations.

PRIMARY elections will go on as usual. The house of representatives decided the other day that it wanted no reform in that direction, and one of the best measures of the session was slaughtered as though it had been one of the worst. The next general assembly may take up the question, but as long as there are so many politicians with pulls there is little hope for reform.

RECENT developments have shown that the government has in some instances paid dearly for the vessels it purchased when Spain seemed ready to attack; but that is no reflection upon the administration. The greatest of care has been exercised, and if some fellow succeeded in cheating Uncle Sam, let him have the money. It will not be long until his littleness will make itself apparent and he will have difficulty in enjoying his illgotten gains.

TRADE IS ALL RIGHT.

The highest financial authorities of this country do not anticipate unusual loss because of war. The country is on a sound money basis. The gold reserve is filled to overflowing, and the balance of trade is largely in our favor. There is no need to fear for any section but the Atlantic coast, and when the first flurry is over even there the trouble will soon cease to be annoying. The people who stay at home will continue their daily avocation, and prosperity's progress will not for a moment be stayed.

WHERE ARE THEY?

We refer to those who love to make "spread eagle" speeches during the piping times of peace; those fellows who array themselves in all the panoply of war, fine and gorgeous uniforms, and parade at the heads of processions upon our public thoroughfares, seated in fine vehicles, paid for from the public purse, or astride of a prancing steed, secured on the same pecuniary basis, the pride of all beholders, and more especially of themselves. Where are they now? Why do they lose this glorious opportunity of immortalizing themselves? Why do they not rush to the front, the leaders of brave and gallant men, a terror to the haughty Dons, and heralded as chevaliers beyond reproach, the rescuers of starving women and children in the fair island of Cuba, and comrades with such gallant patriots as Gomez and his brave followers? Echo answers "why?" You know the boosters and braggarts we are after. Mark them in mind and memory, and spot them in the future. Where are they? Echo answers—"where?"

NOT STRONG ENOUGH

Some Members of Company E Were Discharged.

BATTALION IS ENTHUSIASTIC

Captain Hobbs Found None Who Wanted to Stay at Home—Arrangements Completed For the Flag Presentation at the First National Tonight.

Captain Hobbs, assistant surgeon, Eighth infantry, returned home Saturday after making a physical examination of the members of the battalion to see how many of them were in condition to stand a campaign.

He found the various companies very enthusiastic and ready and eager to answer the call as soon as it comes. The men stood the physical examination very well, and the captain returned home well pleased with his inspection.

He made his report to Captain Hill, of E company, and it was found the following men were not physically able to stand the trip: Oscar Sheffler, George Beggs, Walter Young, J. H. Moore, John Reed, Corporal R. G. Shenkel, John Kennedy, William Hughes. The men were much disappointed, and almost all of them took a second examination to see if it was not possible to get through but it was of no avail, and they will be compelled to stay at home when the company leaves.

Captain Hill at once commenced filling their places and had between 15 and 20 available men. Before 3 o'clock the company was again to its full quota.

When the orders are issued for the mobilization of the Ohio National Guard it is thought Columbus will be selected as the place of rendezvous. Bullit park, a large tract of 500 acres, will be the camp ground, and the militia will go into camp in the same manner as at the annual encampments. Governor Bushnell will make his inspection of the grounds today, and it is expected that he will issue his orders calling the troops tomorrow.

Superintendent Rayman has announced that he will make no effort to keep the children in school when the call came for the company. Arrangements were also made to tap the school bell.

The arrangements for the flag presentation to take place this evening at the First National bank have been completed, and the affair promises to be the most patriotic demonstration in the history of the city.

The following persons were added to Company E by enlistment today:

Arthur Humes, David Carnahan, Ralph Woods, James Mackall, William and John Audruss, Thomas McGill, Alex Gourley, Alfred Reingar, W. H. Murdock, Daniel Gourley, W. S. Lee, William Killmer and Francis M. Barker.

Four of the above are 19 years old, and on the back of one application was a note from the boy's mother, giving her consent to her son's enlistment as a volunteer.

Another Fall at the Grand.

Last evening, while two young men were standing on the iron grating at the Hotel Grand, it suddenly gave way and precipitated them into the cellar. The young men were badly frightened, but neither was injured, and the place was quickly covered with planks.

He Believes in Sustaining Mayor Bough in His Appointments.

EDITOR NEWS REVIEW:—In the interest of good government, fairness and Christian citizenship, I ask the publication of a protest to the proposed action of our city council in not ratifying the appointments of Mayor Bough. Mayor Bough, a Prohibitionist, is our mayor, as such he is entitled to the support of all good citizens and should be allowed to make his own appointments in his own way. His is the responsibility. To him will be accorded the honor if his administration be successful; and his will be the blame if it be a failure. If, through resistance of his will on the part of the city council and selection of minor officers who will not carry out his policy, failure should follow, the public will still charge it to the mayor's inefficiency, and not where it really would belong.

What our council should do would be to carry out the policy as outlined by the mayor and as desired by the majority of our people, as handsomely expressed at the polls. Our people expect changes in the interest of good government, and further expect our city council to aid in the work.

Mayor Bough is at the head of our city government. His appointments have been of honorable men. Had he selected only Prohibitionists to fill offices at his command, there might be some little excuse for the attitude of the council. As it is, politics seem not to have figured in the matter; good citizenship alone was considered. Republicans certainly have no room to kick, with so large a majority of the appointees being from their party.

Yours truly,

O. S. REED.

The hired girl out of a job cast her eagle eye over the want notices of the newspaper. "Wanted, Wanted, Wanted," she read in one or two line ads straight down the column, shaking her head at intervals as if disappointed in her search. Finally her face lightened as she saw a leaded notice in another column of more pretensions than its fellows.

She turned to it and read eagerly. Then she threw the paper from her.

"What's the matter?" asked the girl with her.

"Read that." And she gathered up the sheet and handed it over to the other one, who read this notice:

"Wanted—A young and strong woman of good disposition and habits, obedient and knowing her place, willing and ready, active and efficient, to cook, wash and iron, do general housework and take care of children. Evenings and afternoons off when possible. Apply, with references, etc."

"Well?" said the reader.
"It's not well at all," responded the one looking for work. "That man, whoever he is, is advertising for a wife, I should say from the advertisement, and I'm not looking for that kind of a job. Just a plain hired girl's place is good enough for me."—Washington Star.

Shopping in London.

One of the erroneous impressions that Americans have before they try shopping in London is that things are remarkably cheap there, and when they are set right by actual experience with the fashionable dressmakers and haberdashers they get a second mistaken idea that English tradesmen are extraordinarily unskillful. This all arises from the different customs that govern retail business in the two countries. In America we pay cash for goods or settle our accounts monthly. In England, however, accounts are supposed to be rendered quarterly, and it has frequently happened that because some patrons have a social prominence that gives their trade value as an advertisement the shopkeeper has allowed their accounts to run for three and four years. Other patrons have demanded the same privileges and have abused them, and the result is that to compensate for interest on money owing by solvent debtors and for the sums lost through those who never pay the tradesman charges a goodly profit on all his goods, and the prices are accordingly high. On the other hand, American women shopping abroad seem to be bargain mad, and their efforts to beat down prices inspire the tradesman with much the same feeling that a well trained butler experiences when his nouveau riche master economizes on his wines. In fact, looking for bargains in Bond street is folly.—San Francisco Argonaut.

Sponges.

Fine sponges are used by physicians in surgical operations and are sometimes very expensive. Our finest sponges come from the Mediterranean sea and the Red sea. They are obtained by divers, who search for them under rocks and cliffs, and who remove them carefully with a knife, that they may not be injured. The Turks, who carry on the trade, have between 4,000 and 5,000 men employed in collecting sponges. The value of the sponges annually collected is estimated at \$90,000. Coarse varieties are found in the Gulf of Mexico and the Bahama islands. They are scraped off the rocks with forked instruments, and consequently they are often torn.

In England more than 10,000,000 oil lamps are used nightly. They cause 800 deaths annually, and in London alone 165 fires in a year have been traced to them.

The annual consumption of paper used in China, Japan, India and elsewhere is \$10,000,000. Most of it is of local manufacture. The Chinese don't like foreign made paper.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Label at the head of their columns.

It's all right so long as we capture the prizes.

CONGRESS stands behind President McKinley and the people stand behind congress, making a combination which Spain will find solid as a rock.

THE new mayor of Salem has ordered the slot machines out of town, and in other ways shown that he will give that Quaker community the house cleaning it seems to need.

THERE is no reason to believe that Spain will long withstand the assaults of Uncle Sam, and long before the snow flies some of the boys who marched away will have again taken up their peaceful avocations.

PRIMARY elections will go on as usual. The house of representatives decided the other day that it wanted no reform in that direction, and one of the best measures of the session was slaughtered as though it had been one of the worst. The next general assembly may take up the question, but as long as there are so many politicians with pulls there is little hope for reform.

RECENT developments have shown that the government has in some instances paid dearly for the vessels it purchased when Spain seemed ready to attack; but that is no reflection upon the administration. The greatest of care has been exercised, and if some fellow succeeded in cheating Uncle Sam, let him have the money. It will not be long until his littleness will make itself apparent and he will have difficulty in enjoying his illgotten gains.

TRADE IS ALL RIGHT.

The highest financial authorities of this country do not anticipate unusual loss because of war. The country is on a sound money basis. The gold reserve is filled to overflowing, and the balance of trade is largely in our favor. There is no need to fear for any section but the Atlantic coast, and when the first flurry is over even there the trouble will soon cease to be annoying. The people who stay at home will continue their daily avocation, and prosperity's progress will not for a moment be stayed.

WHERE ARE THEY?

We refer to those who love to make "spread eagle" speeches during the piping times of peace; those fellows who array themselves in all the panoply of war, fine and gorgeous uniforms, and parade at the heads of processions upon our public thoroughfares, seated in fine vehicles, paid for from the public purse, or astride of a prancing steed, secured on the same pecuniary basis, the pride of all beholders, and more especially of themselves. Where are they now? Why do they lose this glorious opportunity of immortalizing themselves? Why do they not rush to the front, the leaders of brave and gallant men, a terror to the haughty Dons, and heralded as chevaliers beyond reproach, the rescuers of starving women and children in the fair island of Cuba, and comrades with such gallant patriots as Gomez and his brave followers? Echo answers "why?" You know the boasters and braggarts we are after. Mark them in mind and memory, and spot them in the future. Where are they? Echo answers—"where?"

BATTALION IS ENTHUSIASTIC

Captain Hobbs Found None Who Wanted to Stay at Home—Arrangements Completed For the Flag Presentation at the First National Tonight.

Captain Hobbs, assistant surgeon, Eighth infantry, returned home Saturday after making a physical examination of the members of the battalion to see how many of them were in condition to stand a campaign.

He found the various companies very enthusiastic and ready and eager to answer the call as soon as it comes. The men stood the physical examination very well, and the captain returned home well pleased with his inspection.

He made his report to Captain Hill, of E company, and it was found the following men were not physically able to stand the trip: Oscar Sheffler, George Beggs, Walter Young, J. H. Moore, John Reed, Corporal R. G. Shenkel, John Kennedy, William Hughes. The men were much disappointed, and almost all of them took a second examination to see if it was not possible to get through but it was of no avail, and they will be compelled to stay at home when the company leaves.

Captain Hill at once commenced filling their places and had between 15 and 20 available men. Before 3 o'clock the company was again to its full quota.

When the orders are issued for the mobilization of the Ohio National Guard it is thought Columbus will be selected as the place of rendezvous. Bullit park, a large tract of 500 acres, will be the campground, and the militia will go into camp in the same manner as at the annual encampments. SECRETARY SHERMAN RESIGNED

His Health Would Not Permit Him to Do the Work Required.

PLACE OFFERED TO JUDGE DAY

Another Change Is Announced In the Cabinet—President McKinley Sent a Message to Congress Recommending a Declaration of War—The House Broke the Record In Passing the Measure, Consuming Less Than Two Minutes.

WASHINGTON, April 25.—[Special]—Hon. John Sherman, secretary of state, this morning sent his resignation to President McKinley, and it was accepted. The place was at once offered to Judge Day, assistant secretary.

The action on the part of Mr. Sherman was no surprise as it has been expected for several days. It is known that his health will not allow him to give his personal attention to many important matters connected with the department, and for several months much of the business that should have been transacted by him has been done by the assistant. Mr. Sherman decided some time ago that in the event of war he would be compelled to give up his position, and arranged his plans accordingly.

When Judge Day was tendered the position he accepted, and will enter on the discharge of his duties at once.

QUICK WORK.

The House Lost No Time In Declaring War.

WASHINGTON, April 25.—(Special)—Probably the quickest work in the history of the house of representatives was recorded this afternoon when the resolution declaring war against Spain was passed.

It was just one minute and 41 seconds from the time the work began until it was completed. The enthusiasm was great.

DECLARE WAR.

That Is What President McKinley Says to Congress.

WASHINGTON, April 25.—[Special]—President McKinley has sent a message to congress recommending that a formal declaration of war against Spain be made.

There are many reasons for the recommendation, and it will be acted upon without delay. The message is not long.

TRAIN BROKE IN TWO.

Then the Parts Came Together and There Was Loss.

Extra freight 694 broke in two when coming down the hill near the Harker pottery at 11 o'clock last night. When it was discovered the engineer was signalled to stop. The first part of the train was backed, and when near the Thompson plant met the other section, now going at a rapid rate. They came together with a crash, destroying one car and badly wrecking another.

The Wellsville wreck crew was ordered out and at 8:30 this morning the tracks were clear. No one was hurt.

Russell was 72 years old and was born at Guilford, this county.

A SERIOUS CHARGE

Hangs Over Three Young Residents of Lisbon.

LISBON, April 23.—[Special]—A large barn and house situated four miles northeast of this place were destroyed by fire Saturday night. The loss is \$700.

Len Eells, George Dixon and Charles Sloane, well-known young men of this place, were arrested, charged with firing the buildings. Their motive is unknown.

Trip to Chinatown.

Go to the opera house on Wednesday evening and see Frank Lane as Well and Strong, the man with one foot in the grave, which is the principal character in Hoyt's "A Trip to Chinatown," the most successful farce-comedy ever written. "Chinatown" has been selected by Manager Norris as the attraction with which to entertain the theatergoers at the end of the season, and he couldn't have chosen a better one. The costumes and scenery are all new, and so are all the songs, excepting "The Bowery," but the actors are nearly all old in their parts.

Was It the Umbrella?

Early Saturday evening in Fifth street a man and woman, evidently husband and wife, engaged in a wordy war to the amusement of a large number of spectators.

Finally the man threw an umbrella which he was carrying on the sidewalk and departed. The woman picked it up and walked away in the opposite direction. The crowd dispersed.

EXTENT OF INJURIES NOT KNOWN

He Was In the Foutts Building, and Did Not See the Opening—Dropped to the Basement and Alighted on His Side. No Bones Broken.

Charles M. Dix this morning met with a painful accident by falling down the elevator shaft at the Foutts building.

Accompanied by E. A. Nerker he went to the Foutts building to look at some samples. It is very dark in the hallway, and Mr. Nerker started to pull the chain to let the elevator down from the third floor, but Mr. Dix thought he was waiting for him to step on the elevator, and before Mr. Nerker could stop he had plunged into the cellar a distance of eight feet, alighting on his side.

He was assisted to his feet and a physician summoned, who, upon examination, found there were no bones broken, but could not tell for a few days whether Mr. Dix was injured internally.

He was taken to his home in West Market street, where he is resting easy, although it is thought his injuries are more serious than was at first anticipated.

Some of the Sick

SECRETARY SHERMAN RESIGNED

His Health Would Not Permit Him to Do the Work Required.

PLACE OFFERED TO JUDGE DAY

Another Change Is Announced In the Cabinet—President McKinley Sent a Message to Congress Recommending a Declaration of War—The House Broke the Record In Passing the Measure, Consuming Less Than Two Minutes.

WASHINGTON, April 25.—[Special]—Hon. John Sherman, secretary of state, this morning sent his resignation to President McKinley, and it was accepted. The place was at once offered to Judge Day, assistant secretary.

The action on the part of Mr. Sherman was no surprise as it has been expected for several days. It is known that his health will not allow him to give his personal attention to many important matters connected with the department, and for several months much of the business that should have been transacted by him has been done by the assistant. Mr. Sherman decided some time ago that in the event of war he would be compelled to give up his position, and arranged his plans accordingly.

When Judge Day was tendered the position he accepted, and will enter on the discharge of his duties at once.

QUICK WORK.

The House Lost No Time In Declaring War.

WASHINGTON, April 25.—[Special]—Probably the quickest work in the history of the house of representatives was recorded this afternoon when the resolution declaring war against Spain was passed.

It was just one minute and 41 seconds from the time the work began until it was completed. The enthusiasm was great.

DECLARE WAR.

That Is What President McKinley Says to Congress.

WASHINGTON, April 25.—[Special]—President McKinley has sent a message to congress recommending that a formal declaration of war against Spain be made.

There are many reasons for the recommendation, and it will be acted upon without delay. The message is not long.

TRAIN BROKE IN TWO.

Then the Parts Came Together and There Was Loss.

Extra freight 694 broke in two when coming down the hill near the Harker pottery at 11 o'clock last night. When it was discovered the engineer was signalled to stop. The first part of the train was backed, and when near the Thompson plant met the other section, now going at a rapid rate. They came together with a crash, destroying one car and badly wrecking another.

The Wellsville wreck crew was ordered out and at 8:30 this morning the tracks were clear. No one was hurt.

Finished the Line.

The telephone company have completed a private line for the Ohio Valley Gas company, of this city, to their fields on the Elder farm, five miles from Frankfort. It is possible more private lines for the company's use will be built in the near future.

Going to Be Married.

The announcement is made of the marriage of Price Mountford and Miss Sadie Havel. The young people have many friends in the city who will wish them much happiness.

KILLED AT HOMEWORTH.

Jefferson Russell Was Run Down by a Gravel Train.

HOMEWORTH, April 25.—[Special.]—Jefferson Russell was killed by a Cleveland & Pittsburgh gravel train.

Russell attempted to cross the track in front of the train, and Engineer Potts sounded the whistle but the man continued on his way and was hit. He was taken to the depot.

Russell was 72 years old and was born at Guilford, this county.

A SERIOUS CHARGE

Hangs Over Three Young Residents of Lisbon.

LISBON, April 23.—[Special]—A large barn and house situated four miles northeast of this place were destroyed by fire Saturday night. The loss is \$700.

Len Eells, George Dixon and Charles Sloane, well-known young men of this place, were arrested, charged with firing the buildings. Their motive is unknown.

Trip to Chinatown.

Go to the opera house on Wednesday evening and see Frank Lane as Well and Strong, the man with one foot in the grave, which is the principal character in Hoyt's "A Trip to Chinatown," the most successful farce-comedy ever written. "Chinatown" has been selected by Manager Norris as the attraction with which to entertain the theatergoers at the end of the season, and he couldn't have chosen a better one. The costumes and scenery are all new, and so are all the songs, excepting "The Bowery," but the actors are nearly all old in their parts.

Was It the Umbrella?

Early Saturday evening in Fifth street a man and woman, evidently husband and wife, engaged in a wordy war to the amusement of a large number of spectators.

Finally the man threw an umbrella which he was carrying on the sidewalk and departed. The woman picked it up and walked away in the opposite direction. The crowd dispersed.

Real Estate Transfers.

LISBON, April 25.—[Special]—The following transfers of Liverpool real estate have been recorded:

SPAIN TO BE WHIPPED

And Turkey Made to Suffer For Its Sins.

THE JEWS WILL ACCEPT CHRIST

Prof. O. S. Reed at the Christian Church Preaches of Prophecies, and Shows How Near They Are to Fulfillment—Services In Other Churches of the City Yesterday.

At the Christian church the pastor, O. S. Reed, was greeted by a fine audience last night. He delivered a sermon which was listened to with deep attention. The reverend gentlemen believes that the Jews will accept Christ about the year 1927, and will be restored to their former favor with God; that the archangel Michael shall intercede in their behalf and that prophecy demonstrates this idea to be a fact. He believes further that we are on the eve of a great epoch in the history of the world, and that stirring events will transpire from the present time until the year 1927. He believes that he proves, by the book of books, (coincided with by profane history) that desperate wars shall occur within the next few years, forerunners of a grand era of peace, prosperity and progress. His line of thought embraces the idea that Spain will be beautifully whipped in the coming contest with the United States, and that ere long the Turkish government, the "abomination of abominations," shall cease to exist as a power among the nations of this earth. He prayed earnestly that God may be with the soldiers and sailors of the United States during the coming conflict with Spain, and pleaded with the Master for the boys of E company, asking that they might go into the oncoming struggle, if called upon, from motives of Christian principle, and not be guided or controlled by the mere hurrah and enthusiasm of the moment, as they are possibly confronting vicissitudes and dangers of which they have no true conception. The speaker placed the date of the cessation of the daily sacrifice on the part of the Jews in the year 637, at the time when a Turkish mosque was erected in the city of Jerusalem, and followed this up with the visions of Daniel, showing that 1290 years would elapse from that date until the restoration of the daily sacrifice by the Jews, bringing the accomplishment of this idea to the year 1927. Space forbids a full report of the sermon, which is attracting much comment. The subject will be renewed on next Sabbath night by Professor Reed, and you are cordially invited to be present.

In Other Churches.

Rev. Nelson M. Crowl, of DeHaven, Pa., occupied the pulpit at the Second Presbyterian church yesterday.

Rev. J. W. Dorrance, of Seattle, Wash., preached at the First Presbyterian church yesterday morning.

"Our faith is the victory that overcometh the world," was the subject of a splendid sermon delivered by Rev. J. G. Reinartz at St. John's Lutheran church yesterday morning.

Rev. C. F. Swift occupied the pulpit at Chester chapel yesterday afternoon.

Services at the First U. P. church were largely attended. "The Power of Divine Grace" was the subject of Doctor Taggart's sermon in the evening.

The services held at the Young Men's Christian association yesterday afternoon were largely attended. Patriotic addresses were made by Dr. J. C. Taggart, Secretary Sully and Squire E. W. Hill.

Forty hours devotion will commence at St. Aloysius church tomorrow at 7:30 o'clock. It will end Thursday morning, and during the observance the blessed sacrament will be exposed to view. Father Smyth will be assisted by Father Halligan, of Wellsville, Father Bell, of Salineville, and Father Meyers, of Pittsburg.

Chicago People Coming.

When the Queen City passes this port tomorrow it will have among its passengers east a party of Chicago people to the number of 30.

The party is one of leading business men of that city who are making the trip through the Ohio valley in the interest of their various concerns. It is possible they will visit a pottery on their way home.

The Company Disbanded.

The theatrical company which played a three night engagement at the opera house last week disbanded after the performance Saturday night, the season being ended. A part of the company left on the Hudson for Pittsburg yesterday afternoon, and some left for the west this morning.

AMBULANCES FOR NAVY.

Dimensions of Two Hospital Ships—What They Would Do In Battle.

Should Spanish shell or bullet reach any of the gallant boys who will probably train Uncle Sam's guns in the direction of the fleets of the peninsula don't kind hands will apply balm on board the ambulance ship Grande Duchesse, which was purchased recently by the government from the Platt line and which is being rapidly put in condition to accompany Captain Sampson's fleet.

Although built for passenger service, it would seem as though the Grande Duchesse were designed for hospital work. Constructed of steel, she is fast, safe and roomy. The dimensions of the vessel are: Length, 404 feet over all; length between perpendiculars, 380 feet; beam, 47 feet 9 inches; depth from top of deck to base line, 37 feet 4 inches. Rooms for officers and surgeons are being made from the staterooms on the forward deck. Surgeon General Van Ruyven, who has charge of the reconstruction of the ship, has not decided yet what portion of the vessel would be used as an operating room. Two-thirds of the nurses on the Grande Duchesse will be women from the Red Cross society. She will fly the flag of that noble organization, and ships of every nation in the world, hostile or friendly, will muzzle their guns when this vehicle of mercy comes within range.

For Commodore Schley's flying squadron the Cromwell line steamship Creole has been purchased as a hospital ship. She, too, is built of steel. She is 380 feet in length, and her gross tonnage is 4,659. She can carry wounded men away from the battleground at a rate of 16 knots an hour, and her metal sheathed hull will protect our wounded warriors from the shot of any treacherous guns that may be trained upon the vessel by a foe which would gain its ends by murdering women and children.—New York Press.

GAVE \$174 IN PENNIES.

New Jersey School Children Anxious to Assist In the Relief of Cubans.

One hundred and seventy-four dollars in pennies were recently deposited in the People's National bank at New Brunswick, N. J., by County Superintendent of Schools H. B. Willis as the first installment of mite box contributions from school children in the country districts for Cuban relief. The country schoolteachers came to town the other morning from Perth Amboy, South Amboy, Dunellen and Jamesburg loaded with pennies so that they were scarcely able to walk, and five of the teachers spent the best part of the morning counting the coppers and putting them into packages.

There are a great many schools yet to be heard from. County Superintendent Willis said that since the teachers announced that pennies would be received from the children for the aid of the Cubans, the youngsters have been willing to devote their thoughts to nothing else but the war, and the country schoolteachers have been distracted by the warlike gossip in the schoolroom and the youthful demand for information covering the whole question.—Exchange.

THE VALUE OF ZOAR.

Each Member of the Community will Get \$11,000.

The settlement of the affairs of the Zoarites and the division among the members of the vast estate are almost completed. County Surveyor Hayward has already completed the survey and has found that the society owns close to 7,000 acres of valuable land, not to say anything of the property on its domain. The total value of the land and properties will aggregate \$1,500,000, and this divided among the 186 surviving members will make each one worth about \$11,000 or its equivalent.

This will make the domain one of the most wealthy territories in Ohio. The dwelling houses in the town of Zoar will be apportioned among the members, and when it comes to this, as well as to the assignment of land, it is expected that there will be dissatisfaction.—Pittsburg Dispatch.

Description of Chilkoat Pass.

The Philadelphia Press quotes this description of the Chilkoat pass from a private letter: "The elevation of Chilkoat pass is 3,500 feet, and nearly 2,500 feet of this occurs at one place. Here one must use both hands and feet to ascend, and before it is possible to reach a place with sufficient room to rest the weight of the pack seems bent on crushing out one's life. The summit is a glacier, and for four or five miles down this side of it we traveled over ice. The trail is dotted with hastily dug graves, some with names roughly carved on wood and others with no sign save a rude cross of sticks, which the first winter's snow will obliterate. Some died from sheer exposure and exhaustion, some through accident and a few from desperation put an end to their torment with a bullet."

Cost of War.

It has been estimated that war between the United States and Spain would cost us in cash not less than \$1,000,000,000 directly, and much more indirectly. Upon this basis what would be left of Spain?—Boston Globe.

Marriages In Southern India.

The inhabitants of southern India have peculiar marriage customs, according to Dr. Boeck, the German explorer. There are always two marriage ceremonies, he says, one taking place when the betrothed ones are mere infants and the other when the bridegroom takes his wife to his own home. At the infant marriage rites two brothers of the boy place him on an elephant and take him around to give him a glimpse of the city where he and his bride are to live, and at the same time the girl's mother is doing her share by singing to the little one a marriage song.

At the final marriage the mother-in-law leads the young husband by the nose into a room, where his friends and relatives are awaiting him, and amid the loud noise of tamtams, the shrill whistle of pipes and the roaring of trumpets, the bride enters, unveiled. She gives the men present an opportunity to gaze at her, because in future no man but her husband may look at her face. Should this rule be broken at any time, her husband must commit suicide, and she must be burned on a funeral pyre before the sin is blotted out.

The bride is placed in a basket during the Brahman marriage ceremony, and when it is over she emerges veiled and closely guarded by her husband and his friends.—New York Tribune.

Unfortunate Beginning.

Sir William Rowan Hamilton, professor of astronomy in the Dublin university, used to speak with the strongest reverence of Bishop Brinkley, his predecessor. He had for him a filial affection and used to recall with a humorous melancholy the time of their first meeting, when, said he, "I am afraid I offended him."

I was a youth of 18 and sat next him at some public luncheon. We did not speak, and I felt that good manners required me to break the silence. My eye happened to rest on a large map of Van Diemen's Land hanging on the wall. I turned to him.

"My lord," said I, "were you ever in Botany Bay?" The bishop turned to me with a look of severe displeasure.

"Eat your soup, sir," said he, "eat your soup." And then it occurred to me that he thought I was asking whether he had ever been "transported," for at that time Botany Bay was where desperate criminals were sent for a punishment.—Youth's Companion.

Beautiful Winona.

Winona lake, Indiana, (formerly Eagle lake) is an attractive summer haven on the Pennsylvania lines near Warsaw, Indiana. As the site of Winona Assembly and Summer school, this resort has grown into popular favor very rapidly. Improvements made on the two hundred acres of romantic woodland which stretches nearly two miles along the eastern shore of Winona lake, a beautiful sheet of water, include all the comforts and conveniences for a highly enjoyable sojourn. Ample facilities are at hand for satisfactory entertainment at reasonable rates at the commodious hotel which adjoins the railway station at the entrance to the grounds, in cosy cottages, or in tents as may be preferred.

Persons who may desire to combine devotion, entertainment and instruction with rest and recreation will find Winona lake the ideal spot for invigorating both mind and body by instructive entertainment and study and health-giving recreation. The educational work of the Summer school is in charge of well known instructors. The college halls are equipped with all required paraphernalia; the large auditorium in which the Assembly meets, and in which prominent lecturers are heard during the season, has a seating capacity of over 3,000. An amphitheatre, race track and other facilities for athletic pastimes are provided. The fishing, bathing and boating are fine, the large fleet of boats being of the best.

The season of 1898 will open May 15. Commencing on that date excursion tickets with 15 day limit will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will begin June 1, and continue daily until Sept. 30. Season excursion tickets will be good returning until Oct. 31.

Full information about the attractions at "Beautiful Winona," its Assembly and Summer school, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines or to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa.

Reduced Rates to Baltimore.

On May 2d, 3d, 4th and 5th excursion tickets to Baltimore account M. E. church (South) quadrennial conference, will be sold via Pennsylvania lines. Return limit May 30th with privilege to extend to June 16th. The low fare will be open to all. For details apply to the nearest Pennsylvania lines ticket agent.

UNION LABELS.

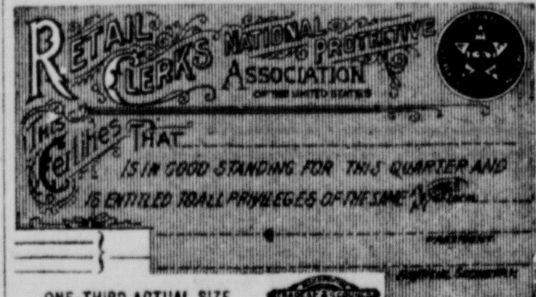

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark which is found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

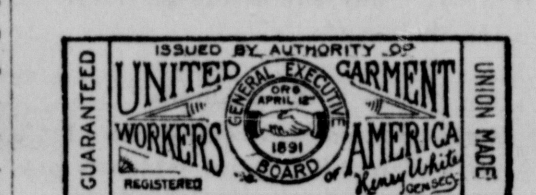

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union-made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

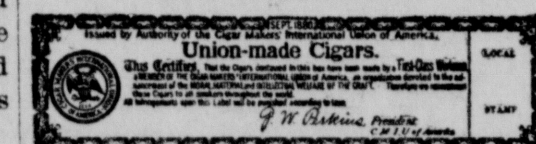

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

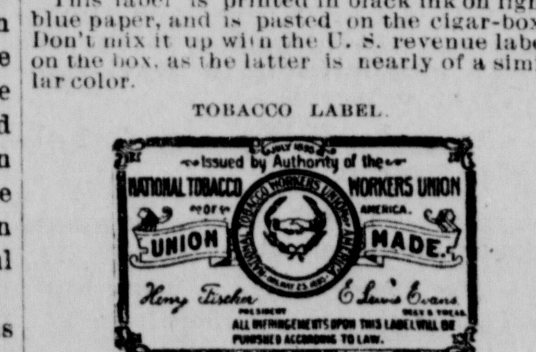

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

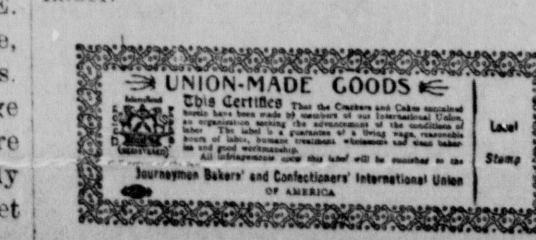

TOBACCO LABEL.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker label:

SPAIN TO BE WHIPPED

THE JEWS WILL ACCEPT CHRIST

Prof. O. S. Reed at the Christian Church
Preaches of Prophecies, and Shows How
Near They Are to Fulfillment—Services
In Other Churches of the City Yesterday.

At the Christian church the pastor, O. S. Reed, was greeted by a fine audience last night. He delivered a sermon which was listened to with deep attention. The reverend gentlemen believe that the Jews will accept Christ about the year 1927, and will be restored to their former favor with God; that the archangel Michael shall intercede in their behalf and that prophecy demonstrates this idea to be a fact. He believes further that we are on the eve of a great epoch in the history of the world, and that stirring events will transpire from the present time until the year 1927. He believes that he proves, by the book of books, (coincided with by profane history) that desperate wars shall occur within the next few years, forerunners of a grand era of peace, prosperity and progress. His line of thought embraces the idea that Spain will be beautifully whipped in the coming contest with the United States, and that ere long the Turkish government, the "abomination of abominations," shall cease to exist as a power among the nations of this earth. He prayed earnestly that God may be with the soldiers and sailors of the United States during the coming conflict with Spain, and pleaded with the Master for the boys of E company, asking that they might go into the oncoming struggle, if called upon, from motives of Christian principle, and not be guided or controlled by the mere hurrah and enthusiasm of the moment, as they are possibly confronting vicissitudes and dangers of which they have no true conception. The speaker placed the date of the cessation of the daily sacrifice on the part of the Jews in the year 637, at the time when a Turkish mosque was erected in the city of Jerusalem, and followed this up with the visions of Daniel, showing that 1290 years would elapse from that date until the restoration of the daily sacrifice by the Jews, bringing the accomplishment of this idea to the year 1927. Space forbids a full report of the sermon, which is attracting much comment. The subject will be renewed on next Sabbath night by Professor Reed, and you are cordially invited to be present.

In Other Churches.

Rev. Nelson M. Crowl, of DeHaven, Pa., occupied the pulpit at the Second Presbyterian church yesterday.

Rev. J. W. Dorrance, of Seattle, Wash., preached at the First Presbyterian church yesterday morning.

"Our faith is the victory that overcometh the world," was the subject of a splendid sermon delivered by Rev. J. G. Reinartz at St. John's Lutheran church yesterday morning.

Rev. C. F. Swift occupied the pulpit at Chester chapel yesterday afternoon.

Services at the First U. P. church were largely attended. "The Power of Divine Grace" was the subject of Doctor Taggart's sermon in the evening.

The services held at the Young Men's Christian association yesterday afternoon were largely attended. Patriotic addresses were made by Dr. J. C. Taggart, Secretary Sully and Squire E. W. Hill.

Forty hours devotion will commence at St. Aloysius church tomorrow at 7:30 o'clock. It will end Thursday morning, and during the observance the blessed sacrament will be exposed to view. Father Smyth will be assisted by Father Halligan, of Wellsville, Father Bell, of Salineville, and Father Meyers, of Pittsburg.

Chicago People Coming.

When the Queen City passes this port tomorrow it will have among its passengers east a party of Chicago people to the number of 30.

The party is one of leading business men of that city who are making the trip through the Ohio valley in the interest of their various concerns. It is possible they will visit a pottery on their way home.

The Company Disbanded.

The theatrical company which played a three night engagement at the opera house last week disbanded after the performance Saturday night, the season being ended. A part of the company left on the Hudson for Pittsburg yesterday afternoon, and some left for the west this morning.

AMBULANCES FOR NAVY.

Dimensions of Two Hospital Ships—What They Would Do in Battle.

Should Spanish shell or bullet reach any of the gallant boys who will probably train Uncle Sam's guns in the direction of the fleets of the peninsula don't kind hands will apply balm on board the ambulance ship Grande Duchesse, which was purchased recently by the government from the Platt line and which is being rapidly put in condition to accompany Captain Sampson's fleet.

Although built for passenger service, it would seem as though the Grande Duchesse were designed for hospital work. Constructed of steel, she is fast, safe and roomy. The dimensions of the vessel are: Length, 404 feet over all; length between perpendiculars, 380 feet; beam, 47 feet 9 inches; depth from top of deck to base line, 37 feet 4 inches. Rooms for officers and surgeons are being made from the staterooms on the forward deck. Surgeon General Van Ruyven, who has charge of the reconstruction of the ship, has not decided yet what portion of the vessel would be used as an operating room. Two-thirds of the nurses on the Grande Duchesse will be women from the Red Cross society. She will fly the flag of that noble organization, and ships of every nation in the world, hostile or friendly, will muzzle their guns when this vehicle of mercy comes within range.

For Commodore Schley's flying squadron the Cromwell line steamship Creole has been purchased as a hospital ship. She, too, is built of steel. She is 380 feet in length, and her gross tonnage is 4,659. She can carry wounded men away from the battleground at a rate of 16 knots an hour, and her metal sheathed hull will protect our wounded warriors from the shot of any treacherous guns that may be trained upon the vessel by a foe which would gain its ends by murdering women and children. —New York Press.

GAVE \$174 IN PENNIES.

New Jersey School Children Anxious to Assist in the Relief of Cubans.

One hundred and seventy-four dollars in pennies were recently deposited in the People's National bank at New Brunswick, N. J., by County Superintendent of Schools H. B. Willis as the first installment of mite box contributions from school children in the country districts for Cuban relief. The country schoolteachers came to town the other morning from Perth Amboy, South Amboy, Dunellen and Jamesburg loaded with pennies so that they were scarcely able to walk, and five of the teachers spent the best part of the morning counting the coppers and putting them into packages.

There are a great many schools yet to be heard from. County Superintendent Willis said that since the teachers announced that pennies would be received from the children for the aid of the Cubans, the youngsters have been willing to devote their thoughts to nothing else but the war, and the country schoolteachers have been distracted by the warlike gossip in the schoolroom and the youthful demand for information covering the whole question. —Exchange.

THE VALUE OF ZOAR.

Each Member of the Community will Get \$11,000.

The settlement of the affairs of the Zoarites and the division among the members of the vast estate are almost completed. County Surveyor Hayward has already completed the survey and has found that the society owns close to 7,000 acres of valuable land, not to say anything of the property on its domain. The total value of the land and properties will aggregate \$1,500,000, and this divided among the 136 surviving members will make each one worth about \$11,000 or its equivalent.

This will make the domain one of the most wealthy territories in Ohio. The dwelling houses in the town of Zoar will be apportioned among the members, and when it comes to this, as well as to the assignment of land, it is expected that there will be dissatisfaction. —Pittsburg Dispatch.

Description of Chilkoot Pass.

The Philadelphia Press quotes this description of the Chilkoot pass from a private letter: "The elevation of Chilkoot pass is 8,500 feet, and nearly 2,500 feet of this occurs at one place. Here one must use both hands and feet to ascend, and before it is possible to reach a place with sufficient room to rest the weight of the pack seems bent on crushing out one's life. The summit is a glacier, and for four or five miles down this side of it we traveled over ice. The trail is dotted with hastily dug graves, some with names roughly carved on wood and others with no sign save a rude cross of sticks, which the first winter's snow will obliterate. Some died from sheer exposure and exhaustion, some through accident and a few from desperation put an end to their torment with a bullet."

Cost of War.

It has been estimated that war between the United States and Spain would cost us in cash not less than \$1,000,000,000—discovery, and much more indirectly. Upon this basis what would be left of Spain?—Boston Globe.

Marriages In Southern India.

The inhabitants of southern India have peculiar marriage customs, according to Dr. Boeck, the German explorer. There are always two marriage ceremonies, he says, one taking place when the betrothed ones are mere infants and the other when the bridegroom takes his wife to his own home. At the infant marriage rites two brothers of the boy place him on an elephant and take him around to give him a glimpse of the city where he and his bride are to live, and at the same time the girl's mother is doing her share by singing to the little one a marriage song.

At the final marriage the mother-in-law leads the young husband by the nose into a room, where his friends and relatives are awaiting him, and, amid the loud noise of tamtams, the shrill whistle of pipes and the roaring of trumpets, the bride enters, unveiled. She gives the men present an opportunity to gaze at her, because in future no man but her husband may look at her face. Should this rule be broken at any time, her husband must commit suicide, and she must be burned on a funeral pyre before the sin is blotted out.

The bride is placed in a basket during the Brahman marriage ceremony, and when it is over she emerges veiled and closely guarded by her husband and his friends. —New York Tribune.

Unfortunate Beginning.

Sir William Rowan Hamilton, professor of astronomy in the Dublin university, used to speak with the strongest reverence of Bishop Brinkley, his predecessor. He had for him a filial affection and used to recall with a humorous melancholy the time of their first meeting, when, said he, "I am afraid I offended him."

I was a youth of 18 and sat next him at some public luncheon. We did not speak, and I felt that good manners required me to break the silence. My eye happened to rest on a large map of Van Diemen's Land hanging on the wall. I turned to him.

"My lord," said I, "were you ever in Botany Bay?" The bishop turned to me with a look of severe displeasure.

"Eat your soup, sir," said he, "eat your soup." And then it occurred to me that he thought I was asking whether he had ever been "transported," for at that time Botany Bay was where desperate criminals were sent for a punishment. —Youth's Companion.

Beautiful Winona.

Winona lake, Indiana, (formerly Eagle lake) is an attractive summer haven on the Pennsylvania lines near Warsaw, Indiana. As the site of Winona Assembly and Summer school, this resort has grown into popular favor very rapidly. Improvements made on the two hundred acres of romantic woodland which stretches nearly two miles along the eastern shore of Winona lake, a beautiful sheet of water, include all the comforts and conveniences for a highly enjoyable sojourn. Ample facilities are at hand for satisfactory entertainment at reasonable rates at the commodious hotel which adjoins the railway station at the entrance to the grounds, in cosy cottages, or in tents as may be preferred.

Persons who may desire to combine devotion, entertainment and instruction with rest and recreation will find Winona lake the ideal spot for invigorating both mind and body by instructive entertainment and study and health-giving recreation. The educational work of the Summer school is in charge of well known instructors. The college halls are equipped with all required paraphernalia; the large auditorium in which the Assembly meets, and in which prominent lecturers are heard during the season, has a seating capacity of over 3,000. An amphitheatre, race track and other facilities for athletic pastimes are provided. The fishing, bathing and boating are fine, the large fleet of boats being of the best.

The season of 1898 will open May 15. Commencing on that date excursion tickets with 15 day limit will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will begin June 1, and continue daily until Sept. 30. Season excursion tickets will be good returning until Oct. 31.

Full information about the attractions at "Beautiful Winona," its Assembly and Summer school, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines or to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa.

Reduced Rates to Baltimore.

On May 2d, 3d, 4th and 5th excursion tickets to Baltimore account M. E. church (South) quadrennial conference, will be sold via Pennsylvania lines. Return limit May 30th with privilege to extend to June 16th. The low fare will be open to all. For details apply to the nearest Pennsylvania lines ticket agent.

UNION LABELS.

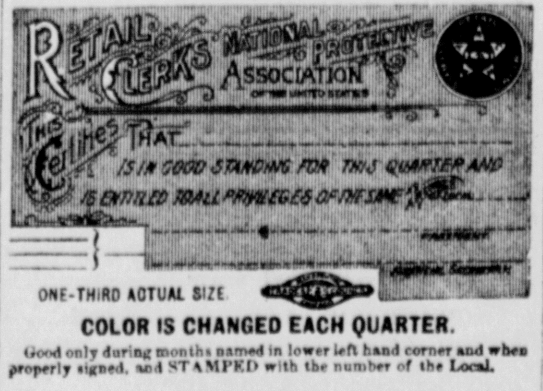

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases.

Endorsed by the A. F. of L.

COLOR IS CHANGED EACH QUARTER.

Good only during months named in lower left hand corner and when properly signed, and STAMPED with the number of the Local.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark, which is found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

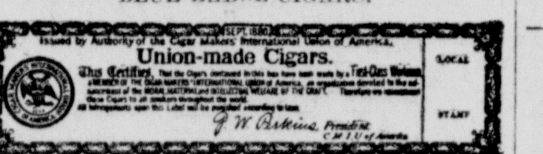

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold.

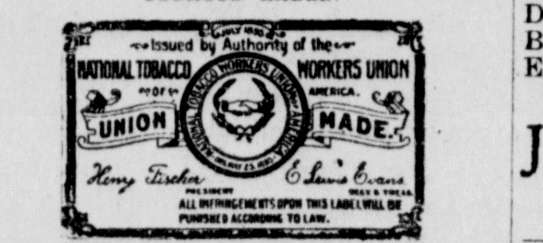

The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the clear-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all pug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker Label:

The Circulation Has Been Placed In the Hands of E. S. Kelly, and Readers Are Assured a First Class Service Will Be the Result--Details of a New Plan.

For some time past, a large number of Wellsville residents have earnestly petitioned the management of the News Review that more attention should be paid their city in the columns of this paper. For months past, a large number of daily REVIEWS have been sent to our sister city, while we have given but one column of local matter per day. Progressive journalism demands that we give fuller attention to Wellsville, and this demand has been met, and an entire page will be hereafter devoted to that purpose.

While the NEWS REVIEW is squarely Republican in politics, it is fearless in its expressions and attitude respecting clean and good government, and will at all times stand for the very best municipal government in East Liverpool and Wellsville.

It is a recognized fact that the NEWS REVIEW is the leading daily paper of this section. Would-be competitors are laughed at by the masses when they attempt to deny this self-evident truth.

Wellsville will get the full issue at an early hour each evening, giving all the news up to the time of going to press, local, telegraphic and miscellaneous news.

A number of Wellsville citizens are employed upon this paper, good and true men, and skillful workmen, receiving full union wages, enabling them to make a good living and lay aside a little for the proverbial rainy days which enter every man's life.

The NEWS REVIEW is staunchly union, from a matter of principle, and all union workmen know this to be a fact, defying successful contradiction.

E. S. Kelly, of the popular Arcade, in the Square, Wellsville, has charge of the circulation in our sister city, and he will see to it that you receive the paper promptly if you leave your order with him. He will also give advertising rates, prices for display space and for local lines, black or plain, as well as prices for all kinds of job work, from the common dodger to the finest price lists, menus, invitations, color or embossed work, at figures sure to please and profit you.

Mr. E. S. Kelley has the right, exclusively, to collect all money due the NEWS REVIEW from old subscribers, Master Earl Adams having passed in his resignation in consequence of the arrangement with Mr. Kelly. Earl Adams has been true and faithful in his work.

One thousand daily REVIEWS will be sent to Wellsville each day of the present week. Advertisers will make note.

JUDGE WELLS' ADDRESS.

Services In the Other Churches Yesterday.

Judge Wells addressed the Asbury Brotherhood yesterday afternoon. "Why Am I a Christian?" was the subject. He said:

"My environment has much to do with my life. Our lives are largely based on our surroundings. The land in which we live and the society in which we move has much to do with our Christian life. Religious growth comes slowly. We are influenced by the company we keep, for it tends to shape and make our lives. Men are created perfect, capable of the greatest happiness, a consoling thought that God

made no mistake. Man is made in the image of God in order that he might commune with God. How sad that he has fallen. There is no longer a desire to do good, but a tendency to do evil. But the Bible is full of the plan to return. It is not through intellect, but by placing the image of God in your heart."

First U. P. Church.

Rev. W. A. Littell, pastor of the United Presbyterian church, preached from "Think not that I am come to send peace on the earth: I am come not to send peace, but a sword."

"This was a hard saying to the disciples. They could not understand how he who was the prince of peace and whose gospel was the gospel of peace could say it. But there is no mistake in any of Christ's statements. Only with spiritual eyes can we see the harmonious and wondrous things in God's word.

"By a 'sword' Jesus meant the gospel—the sword of the spirit. Christ's mission was to make atonement and disseminate the gospel of salvation. When this gospel permeates the heart and true conviction is aroused, then anything else but peace follows.

"Hundreds of sinners under conviction have rolled in agony in their beds or on the floor and cried, 'What must I do to be saved?' It awakens conscience and it clashes with carnal design. Grace working in the soul causes unrest. The old man wars with the new, and we are made to cry, 'O wretched man that I am.'

"By the very nature of the spiritual life in the world that lieth in sin the soul is not at rest. The Christian belongs to heaven and heaven is opposed to earth because earth is under the dominion of hell. By a sword here Christ may also have meant the weapon of war, or by figure the strife and dissensions that open the way for the gospel. From the time that Paul preached in Rome and the gospel went out to all the world with the Roman bayonets God has been making wars the means of opening the dark places for the gospel.

"God is a God of battles. He tips the balances in favor of his cause, punishing oppressors and evil doers and liberating the weak. He made Charles Martel the hammer to break the power of the Moslem when Europe was about to fall into the hands of Mohammedanism. He checked Napoleonic despotism on the field of Waterloo. He made Ferdinand and Isabella to drive back the Moors in the fifteenth century and save the Christian church from the power of Mohammed. He sank the Spanish Armada when Phillip II of Spain sought to subject England to the yoke of Rome. He tipped the balance in the crisis of our civil war and struck the shackles from four millions of slaves. 'God moves in a mysterious way his wonders to perform.' This God controls battles, strifes, and rules for his one great purpose—the glory of God in the redemption of man, and like the soul which passes through the throes of conviction out into the peace of Christ. So nations issue at last into line for God's great universal peace which will some day cover the earth.

"We are about to engage in a war with Spain. The Christian will ask why are we thus placed in this condition? Is Spain's cup of iniquity full, and has God directed our nation to punish her? Are we sure that God will bless us in war with Spain under the circumstances?

"We are a nation of Sabbath breakers. We are in complicity with the liquor traffic which destroys one hundred thousand souls annually. We go to war because of the loss of the Main and its crew—nothing is said about the vast army that is filling drunkards' graves! Are we in a position to ask the help of the God of battles in the present crisis? May God help us to examine ourselves lest the present war is a punishment for our sins as well as the driving of Spain away from her prey and into the reception of the gospel of Christ.

Methodist Protestant.

The subject for the evening service at the Methodist Protestant church was "A Call for Volunteers." In the introduction Reverend Stephenson spoke of the sadly critical circumstances of the hour, then took up the text "Therefore put on the whole armor of God that ye may be able to stand the wiles of the devil."

"A call, a reason! What shall be the response? Not a call to rest or labor or service or to the other world, but to continue, as Paul said, 'In this sign conquer.'"

"No soldier of ancient time would

think of going to battle half armed or equipped. Helmet, for the head is often made the point of attack. Breastplate, for the head may be right but heart wrong. Without the girdle of truth all is lacking. The feet not properly practiced wander in the ways of wrong.

"Good soldiers, devout servants of Christ, such as Gideon, Joshua, Jonathan and David are wanted now.

"Life is ever a conflict, severe and earnest. No more dress parade, no play spell, no gathering of spoils. There are defeats and victories. Which will it be for us? Christ makes the call to each and every one, to all ages and conditions. We respond to the call of country willingly—What response shall we give to this call. He calls by His spirit and His word. It is a direct and personal call. He calls because He made us and because we need Him. There is danger at hand to every soul that is not in the ranks of the conquering hosts. The conditions of enlistment are easy. Be enrolled, offer your services, yield all to the captain and yield now. Victory is assured! What shall be the response here tonight?"

First M. E. Church.

Doctor Reager took as his text Ephesians iii. 16.

"What the sap is to the tree, the blood to the life, that the spirit is to Christianity. We speak of the church and magnify its forms; Christ spake of the kingdom and magnified righteousness. To be born of the spirit is to be made alive to spiritual things. To be filled with the spirit is to indwelt of God and empowered to bear the fruits of righteousness. The command, to 'be filled with the spirit,' conveys a promise and reveals a privilege. The promise is the gift of the spirit. The privilege is for every believer to be strengthened with all might by the spirit within. Christianity is not a system; it is life. Life on earth in obedience to God's law of life—that is, a life of holiness, which is harmony with God, both as to nature and government, heaven in the soul—is the divine pledge of heaven here and hereafter. A spirit-filled man is saved from sin and selfishness; he lives by the best side of his nature, is in sympathy with Jesus for the salvation of all people, is free from prejudice, envy and malice, and recognizes goodness regardless of creed. Fruit bearing, peace and love are the blessings of a spirit-filled life. Obedience to every word of God, the meeting of every obligation of life, are made possible by the might of the spirit in the inner life."

First Presbyterian.

After a beautiful anthem by the choir Rev. H. W. Lowry last night spoke from the text, "All things are possible to them that believe." He said:

"The question is raised, why do we believe at all? Duty is a disagreeable thing. Faith has to do with motive. It makes men, ideal men, and God likes men. Luther is a modern instance. What stimulated Columbus to the discovery of a new world? The courage that was his was the definite product of his faith. Faith has always presided over our country's destinies. What now guides our country for the cruel conflict but the abiding faith in right? "He that considereth the wind will not sow. The faith required is not our own self confidence. We must fill our insufficiency. God's power is needed. Christ can help only those who believe."

TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomparably superior to those of would-be competitors. Test the matter. We will prove the truth of our assertion.

Printed envelopes, either 6 or 6½ in size, at the NEWS REVIEW, from 95 cents per thousand up, according to quality. We defy competition in workmanship or material.

LOCAL BREVITIES.

Mr. and Mrs. George Heisler returned Saturday evening from their wedding trip.

The printers at the East Liverpool pottery this morning resumed work after a few days' idleness.

A. D. Wilson left this morning for a two months' trip trough the west in the interest of the Union pottery.

O. A. Edgell and Miss Celia Turner were married Saturday evening at the residence of Squire J. N. Rose.

A small flat flying the red flag passed the city early yesterday evening. It was going to the West Virginia oil fields.

The library directors will hold a regular meeting Wednesday evening. There is no business of special importance to transact.

Miller & Connors have entered suit in the court of Squire Rose against Wally Simms for \$24 80. The case will be heard Friday.

George C. Simms was in Beaver Saturday evening attending a reception given by Miss Leubville Dawson and Miss Byrd Dawson.

The household effects of Mrs. L. D. Koch were received at the freight depot this morning. It was the only moving handled during the day.

The cycling club will meet tomorrow for the purpose of making arrangements for their cycle show. Preparations will also be made for several runs.

Reverend O. F. Swift today attended a meeting of Methodist Protestant ministers in Pittsburg. It was a conference to further church work.

The funeral of Wilminia McBane was held in the First M. E. church yesterday afternoon. It was well attended, and the interment was made in Spring Grove cemetery.

The Dresden Pottery company will send another car of ware west this week. During the last six weeks no less than 10 cars have been sent west and south by this company.

H. L. Simms returned to work this morning for the first time since he was injured some time ago. He passed through the city this afternoon at 3:49, going to Cleveland.

Street Commissioner Bryan this afternoon cleaned Washington street between Fifth and Fourth streets. This insures a clean street for the demonstration this evening.

Saturday afternoon a wagon loaded with iron for the new trestle broke down in Jethro street. It required a great deal of hard work before it could be placed on another wagon.

In reporting the caucus of Friday night, the statement was made that Mayor Bough had nominated three Prohibitionists for the police force, when it should have read that Cochran is a Republican and Grant a Democrat.

Much amusement was occasioned this morning when a local paper bulletined that the Cincinnati had captured the Mangrove. As both vessels belong to the United States navy the bulletin could not be understood. Score another blunder to the misfit.

The Hudson and Kanawha arrived at the wharf yesterday afternoon at the same time, and both boats unloaded a considerable amount of freight but did not take any on board. Several thousand hoopoles were put off, and the Hudson left 1,150 bales of straw.

Engineer McConnell and his assistants, Messrs. Hill and Keith, of Steubenville, are still at work on the South Side. They expect to have their work completed by the last of the week. The commencement of the building of the new road will only be a matter of a month or so.

CUBAN REBELS.

They Will Do the Land Fighting at Present.

SEC'Y SHERMAN SO STATES.

No Intention of Taking the Militiamen and New Recruits Into the Island at Present—This Government Will Furnish Cubans With Arms and Munitions of War—Admiral Sampson Will Take the First Opportunity to Form a Junction With Gomez's Army—Preparations Being Made to Call Together the Volunteers—Activity at Washington.

WASHINGTON, April 25.—Secretary Sherman says that it is his expectation that for the present and the immediate future, the insurgent army will do the greater part of the fighting in Cuba. He added the statement that there was no intention of taking the militiamen and new recruits into Cuba until thoroughly inured to the hardships of actual military life and that probably the regulars will be held in this country until later in the season. The secretary expressed the opinion that Admiral Sampson's fleet would take the first opportunity to form a junction with Gomez's army and that there would thenceforth be perfect co-operation between those two organizations in conducting the war against the common enemy.

"The insurgents are the best men for the service at present," said the secretary, "and they can be trusted to do zealous work when well armed and well clothed."

He said it was his understanding that this government would furnish the arms and munitions of war to fit out several regiments of the insurgents in good shape and to put the entire Cuban army in good fighting trim.

General Corbin and Secretary Alger conferred respecting the arrangements for calling on the governors of the states and territories for the quota of troops they are to furnish under the president's proclamation asking for 125,000 men. The number of men in each branch of the service viz: Infantry, cavalry and artillery remains to be settled besides many other matters of detail.

Assistant Secretary Meikeljohn has already received a large number of applications from newspapers to permit their representatives to accompany the army, but as stated in the circular the number to be accorded the privilege will be limited.

The assistant secretary is busily engaged in supervising the general preparations for the transportation of the troops overland and also to Cuba, for which a large number of vessels will be chartered. In the quartermaster's office nearly the whole clerical force was on hand. The details are far from complete, but Quartermaster General Ludington believes everything will be in readiness by the time the troops are ready to move. Some understanding with the railroads on the basis of uniform rates of travel will be arranged if possible so that the soldiers may be sent by the shortest possible route with the least charge to the government to the points of mobilization.

BURNING CUBAN TOWNS.

Consul Triay and Friends Think the Island Will Be Devastated When We Take It.

KINGSTON, Jamaica, April 25.—The United States consul at Baracoa, Cuba, Alfredo T. Triay, his wife and child, two Spanish merchants and 22 Cubans and Spanish-Americans, mostly women and children from Guantanamo, have debarked from the Ely here.

When the steamer left Guantanamo on Friday last a Spanish mob, including many soldiers, filled the public square and adjacent streets yelling "death to the Yankees." Several American flags were soiled, torn, trampled and treated with elaborate unmentionable indignities. Some naturalized Americans were compelled to take part in the insulting work, on the threat of death if they refused.

Orders to the Spanish army declaring the armistice ended were publicly posted at Guantanamo last Friday. Two days previous the troops began concentrating at the principal seacoast cities, abandoning the interior towns and plantations, in many cases burning them. The passengers by the Ely believe the devastation of that part of the island will be completed before the Americans invade the ports held by the Spaniards.

Report of Battle Not Believed.

PALM BEACH, Fla., April 25.—It is believed here by everyone that the report of the battle off Boynton Friday is without foundation. Several responsible citizens from that section were here Sunday and said they saw the ships going south, but did not hear the report of a single gun.

The Paris Not Captured.

NEW YORK, April 25.—Clement A. Griscom, vice president of the American steamship line, said: "I have received a cable message from the agents of the line in Southampton stating that there is absolutely no truth in the rumor that the steamer Paris has been captured."

The Weather.

Fair, with decreasing cloudiness; fresh northerly winds.

ACCEPTED BY OHIO SENATE.

The Majority Report on the Bribery Charges Passed at Columbus.

COLUMBUS, April 25.—A majority of a senate committee Saturday reported that evidence taken by them showed a conspiracy to elect M. A. Hanna United States senator by bribery, and that the attempt by General Boyce to bribe Representative Otis was known to Rathbone, Dick, Hanna and other workers in Mr. Hanna's interest at Columbus.

Senator Garfield's minority report says Otis and his attorney, T. C. Campbell, testify that Boyce disclaimed to them connection with Hanna and his Columbus workers, but that he (Boyce) was sent out by New York parties whose identity he refused to disclose.

The testimony of Otis and Campbell, Mr. Garfield says, is all that was given in accordance with the rules of evidence in the courts of Ohio, which the committee agreed to follow, but that later the majority of the committee admitted hearsay testimony with a view of connecting, if possible, Mr. Hanna with the alleged crime. The senate adopted the majority report by a vote of 19 to 17.

PITH OF THE NEWS.

Some of the Happenings of the Whole World Given Briefly.

A general revision of postoffice box rates has been begun, the accomplishment of which may require several years.

A report from Nanaimo, B. C., says the steam schooner Atlanta, has been wrecked. Her crew and passengers, 14 in number, are said to be safe.

Martin Clancy, grand secretary and treasurer of the Order of Railway Conductors, died at Cedar Rapids, Ia., of cancer of the stomach, aged 56 years.

Governor Otero of New Mexico has telegraphed the secretary of war informing him of the probability of Indian depredations, now that troops have been withdrawn, and asking permission for the enlistment of a sufficient number of New Mexican volunteers to immediately garrison Fort Bayard and Wingate and patrol the border between Mexico and this country.

A Transformation.

Soon after my arrival in Leipsio my attention was called one day to an elderly gentleman on the street.

"Do you see that old gentleman with the big soft felt hat, the blue glasses and the big umbrella?"

"You mean the one who is shambling along as if he were not just sure where he is going?"

"Yes, but you should not speak so disrespectfully of the greatest of living psychologists."

But the mistake was pardonable, for few would have supposed that he was not some plain village burgher who had just come up to town and felt somewhat lost in the big city. Once in Wundt's lecture room, however, one receives a very different impression of him. As the great philosopher pours forth one of his learned discourses those plain features light up, his bearing becomes dignified and impressive, and you no longer think of the ungainly walk and the quaint mannerisms.—Roanoke Collegian.

On the Wrong Track.

Slims recently received private information that his son was not confining himself strictly to the straight and narrow path. There were ugly rumors that the young man played cards and bet on the horses. Slims determined to double his parental vigilance. The other evening he turned to the young man who was deep in a newspaper and inquired sharply, "What are you reading, son?"

"A column under the head of 'What the Book Makers Are Doing?'"

"I'll tell you what they are doing, sir," said the old man severely. "They are living luxuriously this winter and laying their plans to fleece such lambs as you next season. They keep up the race tracks and get rich by fooling noodle pates like you. I've heard all about you, sir, and your wild ways. Order that paper stopped. What are you laughing at, you young rascal?"

"At your surprising knowledge of horse race methods. I was reading the literary reviews."—Detroit Free Press.

CAMP HASTINGS.

The Site at Mt. Gretna to Be So Named.

PENNSYLVANIA BOYS READY

They Will Move at the First Order From Washington—Lines For the Camp Run by Members of the Governor's Staff and Other Officers—Plans Not Yet Arranged For the Organization of a New Guard to Take the Place of the Old One, In the Keystone State—Colonel Miner Will Supervise Rifle Practice at the State Range.

HARRISBURG, April 25. — Governor Hastings and Adjutant General Stewart have everything in readiness to mobilize the national guard of Pennsylvania at Mount Gretna the instant they receive President McKinley's call for volunteers. Lines were run for the camp under the direction of Colonels Logan, Ripple, Miner and Huff of the governor's staff, Brigadier General Gobin and his assistant adjutant general, Major Gherst of Lebanon. The camp will be on the site of the last division encampment and will be named in honor of Governor Hastings. Colonel Miner will be detailed to supervise rifle practice at the state range during the encampment.

Governor Hastings remained at the executive mansion all Sunday and up to a late hour last night had received no word from the war department concerning Pennsylvania's quota of volunteers. He is not yet ready to outline his plans for organizing a national guard in the state when the present organization goes into the field. The new regulation United States cap and belt are being furnished the troops by the adjutant general as fast as they are received from the contractors. A liberal supply of rubber ponchos have been ordered and are expected during the next ten days. The local military companies will be escorted to the railroad station by the Grand Army posts and Sons of Veterans' camps when they leave for Mount Gretna.

SHERMAN'S RETIREMENT.

It Is Not Expected to Take Place Immediately—Davis Refused the Place.

WASHINGTON, April 25.—While there is every reason to believe that Secretary Sherman contemplates retirement from the cabinet at no very distant date, the indications now are that the change will not take place immediately. Senator Davis has declined the place.

"Light Housekeeping."

"Rooms to rent for light housekeeping" is a sign that is steadily creeping into the windows of down at the heel mansions and into others which, though bearing a prosperous air, house occupants who "have experienced reverses."

Just where the line is drawn between the light and heavy variety of this domestic science it is difficult to determine, but it is conclusive proof that if you buy your pastry in bags at the bakery; if, lacking a back door of your own at which to receive the morning milkman, you are obliged to lay in wait for that personage at corners, then you are a "light housekeeper"—though perhaps your burdens are heavy.

We are prone to look upon these humble housekeepers as beings without home or country, because their foothold upon the terra firma of society is so light, but often there is much snugness within the few rooms and much culture, too, though it is hard to conceive of a culture that is nourished on bag lunches.

If you will get up early enough some morning, you may see the husband of one of these light housekeepers, with his paper and pitcher, just returning from a chilly encounter with the milkman, and as he passes into his rooms you may catch a ray from the smile which awaits him, and which, unlike the house, belongs entirely to him.—Chicago Post.

His Pointer.

An eminent judge, being asked how he could turn with such facility from one case to another, replied:

"I learned that from what I saw at a colored baptism when I was a boy. The weather was very cold, so that to immerse it was necessary to cut away the ice. When one of the female candidates was dipped back in the water, the cold made her squirm so that she slipped from the minister's hands and went down the stream under the ice. Looking up with perfect calmness at the throng on the bank, the minister said: "'Brethren, this sister hath departed. Hand me down another.'"—Brooklyn Citizen.

Uses of Luggage.

"Isn't it possible to travel abroad with less luggage?"

"What would you do? You can't get them to paste the labels in a scrapbook."—Detroit Journal.

Thus We Move.

The small merchants of Chicago propose to combine and start a department store of their own. Thus we move toward the socialistic point of noncompetition so frequently denounced by the noncompetitive trusts.—Atlanta Constitution.

ALL the News in the News Review.

TO THE ADVERTISERS.

The Evening News Review has the largest bona fide PAID daily circulation of any paper published in East Liverpool, and the largest circulation in Wellsville of any daily paper published in East Liverpool. Keen witted and wide awake business men and advertisers will make note of these facts.

HARRY PALMER,
Owner and Manager.

TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomparably superior to those of would-be competitors. Test the matter. We will prove the truth of our assertion.

Printed envelopes, either 6 or 6½ in size, at the NEWS REVIEW, from 95 cents per thousand up, according to quality. We defy competition in workmanship or material.

LOCAL BREVITIES.

Mr. and Mrs. George Heisler returned Saturday evening from their wedding trip.

The printers at the East Liverpool pottery this morning resumed work after a few days' idleness.

A. D. Wilson left this morning for a two months' trip through the west in the interest of the Union pottery.

O. A. Edgell and Miss Celia Turner were married Saturday evening at the residence of Squire J. N. Rose.

A small flat flying the red flag passed the city early yesterday evening. It was going to the West Virginia oil fields.

The library directors will hold a regular meeting Wednesday evening. There is no business of special importance to transact.

Miller & Connors have entered suit in the court of Squire Rose against Wally Simms for \$24.80. The case will be heard Friday.

George O. Simms was in Beaver Saturday evening attending a reception given by Miss Leubridge Dawson and Miss Byrd Dawson.

The household effects of Mrs. L. D. Koch were received at the freight depot this morning. It was the only moving handled during the day.

The cycling club will meet tomorrow for the purpose of making arrangements for their cycle show. Preparations will also be made for several runs.

Reverend C. F. Swift today attended a meeting of Methodist Protestant ministers in Pittsburg. It was a conference to further church work.

The funeral of Wilminia McBane was held in the First M. E. church yesterday afternoon. It was well attended, and the interment was made in Spring Grove cemetery.

The Dresden Pottery company will send another car of ware west this week. During the last six weeks no less than 10 cars have been sent west and south by this company.

H. L. Simms returned to work this morning for the first time since he was injured some time ago. He passed through the city this afternoon at 3:49, going to Cleveland.

Street Commissioner Bryan this afternoon cleaned Washington street between Fifth and Fourth streets. This insures a clean street for the demonstration this evening.

Saturday afternoon a wagon loaded with iron for the new trestle broke down in Jethro street. It required a great deal of hard work before it could be placed on another wagon.

In reporting the caucus of Friday night, the statement was made that Mayor Bough had nominated three Prohibitionists for the police force, when it should have read that Cochran is a Republican and Grant a Democrat.

Much amusement was occasioned this morning when a local paper bulletined that the Cincinnati had captured the Mangrove. As both vessels belong to the United States navy the bulletin could not be understood. Score another blunder to the misfit.

The Hudson and Kanawha arrived at the wharf yesterday afternoon at the same time, and both boats unloaded a considerable amount of freight but did not take any on board. Several thousand hoppers were put off, and the Hudson left 1,150 bales of straw.

Engineer McConnell and his assistants, Messrs. Hill and Keith, of Steubenville, are still at work on the South Side. They expect to have their work completed by the last of the week. The commencement of the building of the new road will only be a matter of a month or so.

CUBAN REBELS.

They Will Do the Land Fighting at Present.

SECY SHERMAN SO STATES.

No Intention of Taking the Militiamen and New Recruits Into the Island at Present—This Government Will Furnish Cubans With Arms and Munitions of War—Admiral Sampson Will Take the First Opportunity to Form a Junction With Gomez's Army—Preparations Being Made to Call Together the Volunteers—Activity at Washington.

WASHINGTON, April 25.—Secretary Sherman says that it is his expectation that for the present and the immediate future, the insurgent army will do the greater part of the fighting in Cuba. He added the statement that there was no intention of taking the militiamen and new recruits into Cuba until thoroughly inured to the hardships of actual military life and that probably the regulars also will be held in this country until later in the season. The secretary expressed the opinion that Admiral Sampson's fleet would take the first opportunity to form a junction with Gomez's army and that there would thenceforth be perfect co-operation between those two organizations in conducting the war against the common enemy.

"The insurgents are the best men for the service at present," said the secretary, "and they can be trusted to do zealous work when well armed and well clothed."

He said it was his understanding that this government would furnish the arms and munitions of war to fit out several regiments of the insurgents in good shape and to put the entire Cuban army in good fighting trim.

General Corbin and Secretary Alger conferred respecting the arrangements for calling on the governors of the states and territories for the quota of troops they are to furnish under the president's proclamation asking for 125,000 men. The number of men in each branch of the service viz: Infantry, cavalry and artillery remains to be settled besides many other matters of detail.

Assistant Secretary Meikeljohn has already received a large number of applications from newspapers to permit their representatives to accompany the army, but as stated in the circular the number to be accorded the privilege will be limited.

The assistant secretary is busily engaged in supervising the general preparations for the transportation of the troops overland and also to Cuba, for which a large number of vessels will be chartered. In the quartermaster's office nearly the whole clerical force was on hand. The details are far from complete, but Quartermaster General Ludington believes everything will be in readiness by the time the troops are ready to move. Some understanding with the railroads on the basis of uniform rates of travel will be arranged if possible so that the soldiers may be sent by the shortest possible route with the least charge to the government to the points of mobilization.
